The Human Animal Earthling Identity Carrie P. Freeman, 2020-12-01 With The Human Animal Earthling Identity Carrie P. Freeman asks us to reconsider the devastating division we have created between the human and animal conditions, leading to mass exploitation, injustice, and extinction. As a remedy, Freeman believes social movements should collectively foster a cultural shift in human identity away from an egoistic anthropocentrism (human-centered outlook) and toward a universal altruism (species-centered ethic), so people may begin to see themselves more broadly as “human animal earthlings.” To formulate the basis for this identity shift, Freeman examines overlapping values (supporting life, fairness, responsibility, and unity) that are common in global rights declarations and in the current campaign messages of sixteen global social movement organizations that work on human/civil rights, nonhuman animal protection, and/or environmental issues, such as Amnesty International, Human Rights Watch, CARE, People for the Ethical Treatment of Animals, the World Wildlife Fund, the Sea Shepherd Conservation Society, the Nature Conservancy, the Rainforest Action Network, and Greenpeace. She also interviews the leaders of these advocacy groups to gain their insights on how human and nonhuman protection causes can become allies by engaging common opponents and activating shared values and goals on issues such as the climate crisis, enslavement, extinction, pollution, inequality, destructive farming and fishing, and threats to democracy. Freeman’s analysis of activist discourse considers ethical ideologies on behalf of social justice, animal rights, and environmentalism, using animal rights’ respect for sentient individuals as a bridge connecting human rights to a more holistic valuing of species and ecological systems. Ultimately, Freeman uses her findings to recommend a set of universal values around which all social movements’ campaign messages can collectively cultivate respectful relations between “human animal earthlings,” fellow sentient beings, and the natural world we share.

COMO APLICAR EL FENG SHUI MARTINE EVRAUD, LE HARDY, 2012-03-15 Tras describir los principios del Feng Shui, esta obra da las claves para aplicarlos en casa, en el jardín, en el trabajo y en el amor. El Feng Shui le ayudará a hacer más habitable un entorno en constante y rápido cambio, con la finalidad de armonizarlo con la naturaleza humana, naturaleza que puede ser considerada como una constante desde hace centenares de generaciones. Sus técnicas crean equilibrio y motivación, para alcanzar nuestras metas, tanto dentro del ámbito personal como profesional.

An Appetite for Poetry Frank Kermode, 2013-05-23 Frank Kermode is one of the pre-eminent practitioners of the art of

criticism in the English speaking world. It has been his distinction to make a virtue – as all the best critics have done – of the necessarily occasional nature of his profession. That virtue is evident on every page of this collection of essays. In one group of essays he asks the reader to share his pleasure in a number of major writers – Milton, T.S. Eliot, Wallace Stevens. In another, he discusses ideas about problems in biblical criticism and their implications for the study of narrative in particular and the interpretation of secular literary texts in general. In them he gives clear accounts of questions relating to interpretation and the debate about canons. A key essay looks at the career of William Empson, a career lived between literature and criticism, between the pleasure of the text and the delight in conceptual issues which is characteristic of so much of the contemporary taste for theory. It is Empson's career, perhaps, which is the foundation for the polemical prologue to the book, where Kermode challenges those who doubt the possibility (and the necessity) of the cross-over between literature and criticism, and who argue that criticism is mere appreciation, mere connoisseurship, that theory has displaced criticism and has left literature in the dust, that theory is the avant-garde of critical thought. This piece defines the author's position in the debate about literature and value.

Channeling Cultures Biswarup Sen, Abhijit Roy, 2014 Television is probably the most important mass medium in India today. In this pioneering volume of television studies reputed scholars from across the globe address a series of questions that help us gain a deeper understanding of its nature and function within contemporary Indian society: What makes television occupy a pivotal place in India's public and private cultures? How has television changed from the early days of Doordarshan to the current age of set top boxes and hundreds of channels? What makes news, soap opera and Reality TV an integral part of our daily lives? Why is our popular culture so orchestrated by the 4 Cs (cricket, crime, cinema and celebrity)? Why is television indispensable at times of crises like a 'terrorist' attack? How different is regional television from its national and global counterparts? By analyzing different aspects of content, policy, and broadcasting philosophy, the volume enables the reader to arrive at a deeper understanding of the role television plays in representing and constructing Indian modernity.

Move Your Stuff, Change Your Life Karen Rauch Carter, 2000-01-06 Applying the ancient Chinese practice of feng shui to modern life, the author reveals how carefully arranging items in the home can lead to remarkable results in love, career, and personal happiness.

Kabbalah, Magic, and the Great Work of Self-transformation Lyam Thomas Christopher, 2006 Advancing to higher levels of ritual magic with purpose and power requires an exaltation of consciousness—a spiritual transformation that can serve as an antidote to the seeming banality of modern life. Based on Kabbalistic techniques, the teachings of the Hermetic Order of the Golden Dawn, and an Hermetic tradition spanning nearly two thousand years, this innovative new work introduces the history of the Golden Dawn and its mythology, the Tree of Life, Deities, demons, rules for practicing magic, and components of effective ritual. A comprehensive course of self-initiation using Israel Regardie's seminal Golden Dawn as

a key reference point, Kabbalah, Magic and the Great Work of Self-Transformation guides you through the levels of the Golden Dawn system of ritual magic. Each grade in this system corresponds with a sphere in the Kabbalistic Tree of Life and includes daily rituals, required reading, written assignments, projects, and additional exercises. Knowledgeable and true to tradition, author Lyam Thomas Christopher presents a well-grounded and modern step-by-step program toward spiritual attainment, providing a lucid gateway toward a more awakened state. Finalist for the Coalition of Visionary Resources Award for Best Magick/Shamanism Book

Dark Lies the Island Kevin Barry, 2013 This is a collection of unpredictable stories about love and cruelty, crimes, desperation, and hope from the man Irvine Welsh has described as 'the most arresting and original writer to emerge from these islands in years'.

The China Model Daniel A. Bell, 2016-09-06 How China's political model could prove to be a viable alternative to Western democracy Westerners tend to divide the political world into good democracies and "bad" authoritarian regimes. But the Chinese political model does not fit neatly in either category. Over the past three decades, China has evolved a political system that can best be described as "political meritocracy." The China Model seeks to understand the ideals and the reality of this unique political system. How do the ideals of political meritocracy set the standard for evaluating political progress (and regress) in China? How can China avoid the disadvantages of political meritocracy? And how can political meritocracy best be combined with democracy? Daniel Bell answers these questions and more. Opening with a critique of

“one person, one vote” as a way of choosing top leaders, Bell argues that Chinese-style political meritocracy can help to remedy the key flaws of electoral democracy. He discusses the advantages and pitfalls of political meritocracy, distinguishes between different ways of combining meritocracy and democracy, and argues that China has evolved a model of democratic meritocracy that is morally desirable and politically stable. Bell summarizes and evaluates the “China model”—meritocracy at the top, experimentation in the middle, and democracy at the bottom—and its implications for the rest of the world. A timely and original book that will stir up interest and debate, *The China Model* looks at a political system that not only has had a long history in China, but could prove to be the most important political development of the twenty-first century.

Taoism Eva Wong, 2011-03-08 A leading scholar feng shui master presents the great depth and diversity of Taoist philosophy, practices, and history in this accessible manual to the oft-misunderstood spiritual tradition. Millions of readers have come to the philosophy of Taoism thanks to the classics *Tao Te Ching* and the *I Ching*, or through the practices of t'ai chi and feng-shui, but the Tao is less known for its unique traditions of meditation, physical training, magical practice, and internal alchemy. Eva Wong, a leading Taoist practitioner and translator, provides a solid introduction to the Way. All of Taoism's most important texts, figures, and events are covered, as well as its extraordinarily rich history and remarkable variety of practice. Sections include: • The History of Taoism traces the development of the tradition from the shamans of prehistoric China through the classical period (including the teachings of the famous sage Lao-tzu), the beginnings of Taoism as a religion, the rise of mystical and alchemical Taoism, and the synthesis of Taoism, Buddhism, and Confucianism. • Systems of Taoism explores magical sects, divination practices, devotional ceremonies, internal alchemy, and the way of right action. • Taoist Practices discusses meditation, techniques of cultivating the body, and rites of purification, ceremony, and talismanic magic. This roadmap to the spiritual landscape of Taoism not only introduces the important events in the history of Taoism, the sages who wrote the Taoist texts, and the various schools of Taoist thinking, but also gives readers a feel for what it means to practice Taoism today. A comprehensive bibliography for further study completes this valuable reference work.

Should Trees Have Standing? Christopher D. Stone, 1974 In this book, Professor Stone traces the development of the idea of legal rights, reminding us that children, old people, women, aliens, and minorities have been treated as without rights in many societies throughout human history. Although each new movement to confer rights on some new entity may have seemed odd or frightening or laughable at the time, Stone points out that legal rights have been extended and previously rightless people (and things) have come to be recognized and valued for themselves. He then develops his thesis and proposal that we give legal rights to natural objects in the environment--and to the natural environment as a whole--Back cover.

Daodejing Laozi, 2008-09-11 'Of ways you may speak, but not the Perennial Way; By names you may name, but not the Perennial Name.' The best-loved of all the classical books of China and the most universally popular, the *Daodejing* or *Classic*

of the Way and Life-Force is a work that defies definition. It encapsulates the main tenets of Daoism, and upholds a way of being as well as a philosophy and a religion. The dominant image is of the Way, the mysterious path through the whole cosmos modelled on the great Silver River or Milky Way that traverses the heavens. A life-giving stream, the Way gives rise to all things and holds them in her motherly embrace. It enables the individual, and society as a whole, to harmonize the disparate demands of daily life and achieve a more profound level of understanding. This new translation draws on the latest archaeological finds and brings out the word play and poetry of the original. Simple commentary accompanies the text, and the introduction provides further historical and interpretative context. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

The Life-Changing Magic of Tidying Up Marie Kondo, 2014-10-14 #1 NEW YORK TIMES BESTSELLER • The book that sparked a revolution and inspired the hit Netflix series *Tidying Up with Marie Kondo*: the original guide to decluttering your home once and for all. ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE—CNN Despite constant efforts to declutter your home, do papers still accumulate like snowdrifts and clothes pile up like a tangled mess of noodles? Japanese cleaning consultant Marie Kondo takes tidying to a whole new level, promising that if you properly simplify and organize your home once, you'll never have to do it again. Most methods advocate a room-by-room or little-by-little approach, which doom you to pick away at your piles of stuff forever. The KonMari Method, with its revolutionary category-by-category system, leads to lasting results. In fact, none of Kondo's clients have lapsed (and she still has a three-month waiting list). With detailed guidance for determining which items in your house "spark joy" (and which don't), this international bestseller will help you clear your clutter and enjoy the unique magic of a tidy home—and the calm, motivated mindset it can inspire.

Cuisine and Culture Linda Civitello, 2011-03-29 *Cuisine and Culture* presents a multicultural and multiethnic approach that draws connections between major historical events and how and why these events affected and defined the culinary traditions of different societies. Witty and engaging, Civitello shows how history has shaped our diet--and how food has affected history. Prehistoric societies are explored all the way to present day issues such as genetically modified foods and the rise of celebrity chefs. Civitello's humorous tone and deep knowledge are the perfect antidote to the usual scholarly and academic treatment of this universally important subject.

The Angel Experiment James Patterson, 2009 Max, Fang, Iggy, Nudge, the Gasman and Angel. Six kids who are pretty normal except they grew up in a laboratory - and can fly. Now they want to track down their missing parents - and save the world.

Excel Data Analysis Hector Guerrero, 2018-12-14 This book offers a comprehensive and readable introduction to modern business and data analytics. It is based on the use of Excel, a tool that virtually all students and professionals have access to. The explanations are focused on understanding the techniques and their proper application, and are supplemented by a wealth of in-chapter and end-of-chapter exercises. In addition to the general statistical methods, the book also includes Monte Carlo simulation and optimization. The second edition has been thoroughly revised: new topics, exercises and examples have been added, and the readability has been further improved. The book is primarily intended for students in business, economics and government, as well as professionals, who need a more rigorous introduction to business and data analytics – yet also need to learn the topic quickly and without overly academic explanations.
