*Handbook of Environmental Engineering Assessment* Ravi Jain, 2012-05-09 Under Contemporary Challenges are environmental issues that have received considerable public support and concern; they include: climate change, acid rain, deforestation, endangered species, biodiversity, ecorisk, cultural resources, and sustainability. For most of these issues, there are scientific agreements and disagreements; there are many uncertainties, thus views differ widely. These topics are discussed in considerable detail. Notwithstanding uncertainties and differing views on such topics, all of this information is put in a policy context such that progress towards addressing these contemporary challenges can be made while consensus

on the nature and extent of the problem and resultant solutions are being developed. The book provides considerable information about many timeless issues. These issues range from resources needed for sustaining the quality of life on the planet: air resources to natural resources.

Handbook of Research on Study Abroad Programs and Outbound Mobility Velliari, Donna M., Coleman-George, Deb, 2016-08-24 Millions of students seek short- and long-term study abroad options every year, and this trend is a key illustration of the internationalization of higher education. Because a global perspective has become mandatory in the largely globalized workforce, many institutions look to study abroad programs to prepare their students. This outbound mobility has the potential to contribute to greater understanding between cultures, countries, and individuals. The Handbook of Research on Study Abroad Programs and Outbound Mobility offers a comprehensive look into motivations for and opportunities through all forms of outbound mobility programs. By providing empirically-based research, this publication establishes the benefits, difficulties, and rewards of building a framework to support international students and programs. It is an invaluable resource for academics, students, policy makers, course developers, counselors, and cross-cultural student advisors.
