The Great Partition Yasmin Khan, 2017-07-04 A reappraisal of the tumultuous Partition and how it ignited long-standing animosities between India and Pakistan This new edition of Yasmin Khan's reappraisal of the tumultuous India-Pakistan Partition features an introduction reflecting on the latest research and on ways in which commemoration of the Partition has changed, and considers the Partition in light of the current refugee crisis. Reviews of the first edition: "A riveting book on this terrible story."—Economist "Unsparing. . . . Provocative and painful."—Times (London) "Many histories of Partition focus solely on the elite policy makers. Yasmin Khan's empathetic account gives a great insight into the hopes, dreams, and fears of the millions affected by it."—Owen Bennett Jones, BBC

The Long Partition and the Making of Modern South Asia Vazira Fazila-Yacoobali Zamindar, 2010 Asian history.

The Partition of India Ian Talbot, Gurharpal Singh, 2009-07-23 The British divided and quit India in 1947. The partition of India and the creation of Pakistan uprooted entire communities and left unspeakable violence in its trail. This volume tells the story of partition through the events that led up to it, the terrors that accompanied it, to migration and resettlement. In a new shift in the understanding of this seminal moment, the book also explores the legacies of partition which continue to resonate today in the fractured lives of individuals and communities, and more broadly in the relationship between India and Pakistan and the ongoing conflict over contested sites. In conclusion, the book reflects on the general implications of partition as a political solution to ethnic and religious conflict. The book, which is accompanied by photographs, maps and a chronology of major events, is intended for students as a portal into the history and politics of the Asian region.

Partition Barney White-Spunner, 2017-08-10 THE INTERNATIONAL BESTSELLER 'Stands out for its judicious and unsparing look at events from a British perspective' Dominic Sandbrook, Sunday Times Between January and August 1947 the conflicting political, religious and social tensions in India culminated in independence from Britain and the creation of Pakistan; in *Partition*, Barney White-Spunner shines a light on those turbulent months. This period saw the end of ninety years of the British Raj, and the effective power of the Maharajahs, as the Congress Party established itself, commanding a

democratic government in Delhi. It also witnessed the rushed creation of Pakistan as a country in two halves whose capitals were 2000 kilometres apart. From September to December 1947 the euphoria surrounding independence dissipated into shame and incrimination; nearly one million people died and countless more lost their homes and their livelihoods as partition was realised. The events of those months would dictate the history of South Asia for the next seventy years, leading to three wars, countless acts of terrorism, polarisation around the Cold War powers and to two nations with millions living in poverty spending disproportionate amounts on their military. The legacy of decisions taken that year still continues. Those at the centre became some of the most enduring characters of the twentieth century. Gandhi and Nehru enjoyed almost saint-like status in India, and still do, while Jinnah is lionised in Pakistan. The British cast, from Churchill to Attlee and Mountbatten, find their contribution praised and damned in equal measure. Yet it is not only the national players whose stories fascinate. Many ordinary people who witnessed the events of that year are still alive and have a clear recollection of the excitement and the horror. Illustrating the story of 1947 with their experiences, Partition brings this terrible era for the Indian subcontinent vividly to life.

Hungry Bengal Janam Mukherjee, 2015 Examines the interconnected events including World War II, India's struggle for independence, and a period of acute scarcity that lead to mass starvation in colonial Bengal.

Borders & Boundaries Ritu Menon, Kamla Bhasin, 2018 As an event of shattering consequence, the Partition of India remains significant today. While Partition sounds smooth on paper, the reality was horrific. More than eight million people migrated and one million died in the process. The forced migration, violence between Hindus and Muslims, and mass widowhood were unprecedented and well-documented. What was less obvious but equally real was that millions of people had to realign their identities, uncertain about who they thought they were. The rending of the social and emotional fabric that took place in 1947 is still far from mended. While there are plenty of official accounts of Partition, there are few social histories and no feminist histories. *Borders and Boundaries* changes that, providing first-hand accounts and memoirs, juxtaposed alongside official government accounts. The authors make women not only visible but central. They explore what country, nation, and religious identity meant for women, and they address the question of the nation-state and the gendering of citizenship. In the largest ever peace-time mass migration of people, violence against women became the norm. Thousands of women committed suicide or were done to death by their own kinsmen. Nearly 100,000 women were abducted during the migration. A young woman might have been separated from her family when a convoy was ambushed, abducted by people of another religion, forced to convert, and forced into marriage or cohabitation. After bearing a child, she would be offered the opportunity to return only if she left her child behind and if she could face shame in her natal community. These stories do not paint their subjects as victims. Theirs are the stories of battles over gender, the body, sexuality, and nationalism—stories of women fighting for identity.

Guilty Men of India's Partition Rammanohar Lohia,1970

The Shadow of the Great Game Narendra Singh Sarila,2017-08-10 The untold story of India's Partition. The partition of India in 1947 was the only way to contain intractable religious differences as the subcontinent moved towards independence - or so the story goes. But this dramatic new history reveals previously overlooked links between British strategic interests - in the oil wells of the Middle East and maintaining access to its Indian Ocean territories - and partition. Narendra Singh Sarela reveals here how the Great Game against the Soviet Union cast a long shadow. The top-secret documentary evidence unearthed by the author sheds new light on several prominent figures, including Gandhi, Jinnah, Mountbatten, Churchill, Attlee, Wavell and Nehru. This radical reassessment of one of the key events in British colonial history is important in itself, but its claim that many of the roots of Islamic terrorism sweeping the world today lie in the partition of India has much wider implications.

The Raj at War Dr. Yasmin Khan,2015-07-16 The Second World War was not fought by Britain alone. India produced the largest volunteer army in world history: over 2 million men. But, until now, there has never been a comprehensive account of India's turbulent home front and the nexus between warfare and India's society. In *The Raj at War* we hear the myriad voices of ordinary Indian people, from the first Indian to win the Victoria Cross to the three soldiers imprisoned as 'traitors to the Raj' who returned to a hero's welcome, from the nurses in Indian General Hospitals to labourers and their families in remote villages. Yasmin Khan presents the overlooked history of India at war, and shows how mobilisation for the war unleashed seismic processes of economic, cultural and social change - decisively shaping the international war effort, the unravelling of the empire and India's own political trajectory.

India-Pakistan in War and Peace J. N. Dixit,2003-09-02 Comprehensive account of India's relations with the outside world.

Life After Partition Sarah F. D. Ansari,2005 By the 1990s, ethnic politics had come to dominate Sindh, with calls for Karachi to become a fifth province in its right. *Life After Partition* examines the historical background to these developments by focusing on events in the province in the years immediately following partition, when migrants from India and local people in Sindh found themselves living alongside each other in the newly created state of Pakistan. How far they retained distinctive notions of community and identity, and what its impact was on processes of accommodation and integration forms the main focus of this study of life in Sindh between 1947 and 1962.

A History of Bangladesh Willem van Schendel,2020-07-02 A revised and updated edition of Willem van Schendel's state-of-the-art history, revealing the vibrant and colourful past of Bangladesh.

The Great Divide Henry Vincent Hodson,1997 On August 14, 1947, the greatest and most decisive step in the retreat of British imperialism occurred: the new nation of Pakistan was created out of the body of India, and Britain's century-long

domination over the Indian sub-continent ended. Fifty years later, the trauma and subsequent chequered history of political development have led author H.V. Hodson to ask: was it inevitable? Now in a special gift edition published for the 50th anniversary of the founding of Pakistan, this authoritative and impartial account places the events surrounding partition in an historical perspective, providing a major contribution to contemporary history.

Partition as Border-Making Sayeed Ferdous, 2021-09-30 This book critically analyzes the Partition experiences from East Bengal in 1947 and its prolonged aftermath leading to the creation of Bangladesh in 1971. It looks at how newly emerged borderlands at the time of Partition affected lives and triggered prolonged consequences for the people living in East Bengal/Bangladesh. The author brings to the fore unheard voices and unexplored narratives, especially those relating the experience of different groups of Muslims in the midst of the falling apart of the unified Muslim identity. Drawing on in-depth ethnographic research and archival resources, the volume analyzes various themes such as partition literature, local narratives of border-making, smuggling, border violence, refugees, identity conflicts, border crossing, and experiences of the Bihari Muslims and the Hindus of East Pakistan, among others. A unique study in border-making, this book will be an essential read for scholars and researchers of history, South Asian history, Partition studies, oral history, anthropology, political history, refugee studies, minority studies, political science, and borderland studies.

Modern South Asia Sugata Bose, Ayesha Jalal, 2004 A wide-ranging survey of the Indian sub-continent, Modern South Asia gives an enthralling account of South Asian history. After sketching the pre-modern history of the subcontinent, the book concentrates on the last three centuries from c.1700 to the present. Jointly written by two leading Indian and Pakistani historians, Modern South Asia offers a rare depth of understanding of the social, economic and political realities of this region. This comprehensive study includes detailed discussions of: the structure and ideology of the British raj; the meaning of subaltern resistance; the refashioning of social relations along lines of caste class, community and gender; and the state and economy, society and politics of post-colonial South Asia The new edition includes a rewritten, accessible introduction and a chapter by chapter revision to take into account recent research. The second edition will also bring the book completely up to date with a chapter on the period from 1991 to 2002 and a discussion of the last millennium in sub-continental history.

Demystifying Kashmir Navnita Chadha Behera, 2007-05-01 The Kashmir issue is typically cast as a territorial dispute between two belligerent neighbors in South Asia. But there is much more to the story than that. The Jammu and Kashmir state, home to an extraordinary medley of races, tribal groups, languages, and religions, makes up one of the most diverse regions in the subcontinent. Demystifying Kashmir argues that recognizing the rich, complex, and multi-faceted character of Kashmir is important not only for understanding the structural causes of this conflict but also for providing opportunities to

establish a just, viable, and lasting solution. In this remarkable book, Navnita Chadha Behera traces the history of Kashmir from the pre-partition India to the current-day situation. She provides a comprehensive analysis of the philosophical underpinnings and the local, bilateral, and international dynamics of the key players involved in this flashpoint of conflict, including New Delhi, Islamabad, political groups and militant outfits on both sides of the Line of Control, and international powers. The book explores the political and military components of India's and Pakistan's Kashmir strategy, the self-determination debate, and the insurgent movement that began in 1989. The conclusion focuses on what Behera terms the four P's: parameters, players, politics, and prognosis of the ongoing peace process in Kashmir. Behera also reflects on the devastation of the October 2005 earthquake and its implications for the future of the area. Based on extensive field research and primary sources, *Demystifying Kashmir* breaks new ground by framing the conflict as a political battle of state-making between India and Pakistan rather than as a rigid and ideological Hindu-Muslim conflict. Behera's work will be an essential guide for journalists, scholars, activists, policymakers, and anyone interested in how to avert a war between these nuclear powers.

From the Ashes of 1947 Pippa Virdee, 2018-02 Navigating nostalgia and trauma, dreams and laments, identity(s) and homeland(s), this book explores the partition of undivided Punjab.

Making a Muslim S. Akbar Zaidi, 2021-09-30 Using primarily Urdu sources from the nineteenth century, this book allows us to rethink notions of 'the Muslim', in its numerous, complex and often contradictory forms, which emerged in colonial North India after 1857. Allowing the self-representation of Muslimness and its manifestations to emerge, it contrasts how the colonial British 'made Muslims' very differently compared to how the community envisaged themselves. A key argument made here contests the general sense of the narrative of lamentation, decay, decline, and a sense of self-pity and ruination, by proposing a different condition, that of *zillat*, a condition which gave rise to much self-reflection resulting in action, even if it was in the form of writing and expression. By questioning how and when a Muslim community emerged in colonial India, the book unsettles the teleological explanation of the Partition of India and the making of Pakistan.
