**The Wolf** Ian Convery, Owen Nevin, Erwin van Maanen, Peter Davis, Karen Lloyd, 2023-07-18 New insights into the changing human attitudes towards wild nature through the depiction of wolves in human culture and heritage. Few animals arouse such strong opinion as the wolf. It occupies a contested, ambiguous, yet central role in human culture and heritage. It appears as both an inspirational emblem of the wild and an embodiment of evil. Offering a mirror to different human attitudes, beliefs, and values, the wolf is, arguably, the species that plays the greatest role in shaping our views on what nature is or should be. North America and, more recently, Europe have witnessed a remarkable return of the grey wolf (*Canis lupus*, and its close relative the Eurasian wolf, *Canis lupus lupus*) to eco-systems. The essays collected here explore aspects of this recovery, and consider the history, literature and myth surrounding this iconic species. There are chapters on wolf taxonomy, including the coywolf, the red wolf, and the many faces of the dingo. We also meet the Tasmanian wolf and encounter Nazi Werewolves from Outer Space. The book explores the challenges of separating fact from fiction and superstition, and our willingness to co-exist with large carnivores in the twenty-first century. Biologists, historians, anthropologists, cultural theorists, conservationists and museologists will all find riches in the detail presented in this wolf collection.

Beyond Early Writing David Waugh, Adam Bushnell, Sally Neaum, 2015-06-15 This essential text for primary trainees and teachers examines the key skill of writing beyond the earliest school years. Teaching writing involves much more than simply teaching the mechanics of spelling, grammar and punctuation, important though these are. There are particular issues around writing in school, including the fact that children's writing consistently lags behind their reading in external tests such as SATs, boys' relative lack of success and teachers' lack of confidence in modelling writing. This book addresses these topics as well as focusing on other pertinent practice issues such as working with proficient writers, engaging disengaged

writers and working with children who have EAL and SEN.

Using Literature to Teach English as a Second Language Membrive, Veronica, Armie, Madalina, 2020-05-22 Innovation has replaced stereotypical and old methods as an attempt to make English language teaching and learning appealing, effective, and simple. However, teaching a second language through literature may be a paramount tool to consolidate not only students' lexical and grammatical competences, but also for the development of their cultural awareness and broadening of their knowledge through interaction and collaboration that foster collective learning. Despite past difficulties, literature's position in relation to language teaching can be revendicated and revalued. Using Literature to Teach English as a Second Language is an essential research publication that exposes the current state of this methodological approach and observes its reverberations, usefulness, strengths, and weaknesses when used in a classroom where English is taught as a second language. In this way, this book will provide updated tools to explore teaching and learning through the most creative and enriching manifestations of one language - literature. Featuring a range of topics such as diversity, language learning, and plurilingualism, this book is ideal for academicians, curriculum designers, administrators, education professionals, researchers, and students.

Green Cultural Criminology Avi Brisman,Nigel South,2014-06-05 Over the last two decades, green criminology has emerged as a unique area of study, bringing together criminologists and sociologists from a wide range of research backgrounds and varying theoretical orientations. It spans the micro to the macro—from individual-level environmental crimes and victimization to business/corporate violations and state transgressions. There have been few attempts, however, to explicitly or implicitly integrate cultural criminology into green criminology (or vice versa). This book moves towards articulating a green cultural criminological perspective. Brisman and South examine existing overlapping research and offer a platform to support future excursions by green criminologists into cultural criminology's concern with media images and representations, consumerism and consumption, and resistance. At the same time, they offer an invitation to cultural criminologists to adopt a green view of the consumption landscape and the growth (and depictions) of environmental harms. Green Cultural Criminology is aimed at students, academics, criminologists, and sociologists with an interest in green criminology and cultural criminology: two of the most exciting new areas in criminology today.

The artist John Tenniel provided 42 wood-engraved illustrations for the book.It received positive reviews upon release and is now one of the best-known works of Victorian literature; its narrative, structure, characters and imagery have had a widespread influence on popular culture and literature, especially in the fantasy genre. It is credited as helping end an era of didacticism in children's literature, inaugurating an era in which writing for children aimed to delight or entertain. The tale plays with logic, giving the story lasting popularity with adults as well as with children.
