The Mist in the Mirror Susan Hill, 2012 For the last twenty years Sir James Monmouth has been a gentleman adventurer, journeying all over the globe in the footsteps of his hero, the great pioneering traveller Conrad Vane. One rainy winter night, Sir James returns to London. Orphaned at five, it is now time to find out more about his family and origins, and also to learn about the early years of Conrad Vane. But at every turn James is warned off his investigation into Conrad Vane. Do these warnings explain his flashes of intense fear and feelings of being watched? And what of the boy who has started haunting his every step and the mysterious mirror with its inexplicable reflections? Eventually, Sir James's quest leads him to the old lady of Kittiscar Hall, and deep into a past that binds him to his hero in ways he never could have imagined.

My Last Duchess Daisy Goodwin, 2011 Gorgeous, spirited and extravagantly rich, Cora Cash is the closest thing 1890s New York society has to a princess. Her masquerade ball is the prelude to a campaign that will see her mother whisk Cora to Europe, where Mrs Cash wants nothing less than a title for her daughter. In England, impoverished blue-bloods are queuing up for introductions to American heiresses, overlooking the sometimes lowly origins of their fortunes. Cora makes a dazzling

impression, but the English aristocracy is a realm fraught with arcane rules and pitfalls, and there are those less than eager to welcome a wealthy outsider...

AS Critical Thinking for AQA Oliver McAdoo, 2014-01-14 AS Critical Thinking for AQA is the definitive textbook for students of the current AQA Advanced Subsidiary Level syllabus. Structured very closely around the AQA specification, it covers the two units of the AS level in an exceptionally clear and student-friendly style. The chapters are helpfully subdivided into short digestible passages, and include: intended learning objectives at the beginning of each chapter student exercises at the end of each section with a 'stretching activity' for more advanced learners exam orientated questions key point summaries at the end of each section cross references. In line with the AQA specification, there is a heavy emphasis on more imaginative forms of source material, for example, music, film, artwork, historical documents, adverts, moral dilemmas and scientific debates, as a means of illustrating key points. A great deal of emphasis is also placed on 'live' or 'real' arguments, taking topical examples from the world of science, politics, entertainment and sport. The book is accompanied by a companion website with extensive resources for both instructors and students.

Jamaica Inn Daphne du Maurier, 2023-08 From the author of Rebecca and The Birds: a classic thriller of shipwreck and murder, rich in suspense and surprise (New York Times Book Review). On a bitter November evening, young Mary Yellan journeys across the rainswept moors to Jamaica Inn in honor of her mother's dying request. When she arrives, the warning of the coachman begins to echo in her memory, for her aunt Patience cowers before hulking Uncle Joss Merlyn. Terrified of the inn's brooding power, Mary gradually finds herself ensnared in the dark schemes being enacted behind its crumbling walls -- and tempted to love a man she dares not trust. The inspiration for the 1939 Alfred Hitchcock film.

Simplicity Rules Jo Facer, 2019-05-08 Teaching: the best job in the world. Yet, increasingly, it is considered one of the toughest professions. In recent years, practices have arisen and become widespread which overcomplicate teaching and increase teacher workload, while only having a marginal impact on pupil learning. Simplicity Rules explores how children learn and the most effective ways to teach them, focusing on achieving results using strategies that are low effort and high impact, along with a comprehensive framework underpinning the ideas. Covering what to teach, talk, practice, starting a lesson, ending a lesson, and feedback alongside practical methods to reduce workload as well as simpler and clearer systems to support teachers in the long term, this book asks: Is this the very best use of my time as a teacher? What is the learning impact for the child? What is the impact on my own workload? Are the results worth this effort? Promoting a simplification of teaching practices, Simplicity Rules is an essential guide for school teachers of all levels of experience, and school leaders.

Making Every English Lesson Count Andy Tharby, 2017-06-12 Making Every English Lesson Count: Six Principles to Support Great Reading and Writing goes in search of answers to the fundamental question that all English teachers must ask: 'What can I do to help my students to become confident and competent readers and writers?' Writing in the practical, engaging style of the award-winning Making Every Lesson Count, Andy Tharby returns with an offering of gimmick-free advice that combines the time-honoured wisdom of excellent English teachers with the most useful evidence from cognitive science. The book is underpinned by six pedagogical principles challenge, explanation, modelling, practice, feedback and questioning and provides simple, realistic classroom strategies to bring the teaching of conceptual knowledge, vocabulary and challenging literature to the foreground. It also points a sceptical finger at the fashions and myths that have pervaded English teaching over the past decade or so such as the idea that English is a skills-based subject and the belief that students can make huge progress in a single lesson. Instead, Andy advocates an approach of artful repetition and consolidation and shows you how to help your students develop their reading and writing proficiency over time. Making Every English Lesson Count is for new and experienced English teachers alike. It does not pretend to be a magic bullet. It does not claim to have all the answers. Rather the aim of the book is to provide effective strategies designed to help you to bring the six principles to life, with each chapter concluding in a series of questions to inspire reflective thought and help you relate the content to your classroom practice. In an age of educational quick fixes, GCSE reform and ever-moving goalposts, this precise and timely addition to the Making Every Lesson Count series provides practical solutions to perennial problems and inspires a

rich, challenging and evidence-informed approach to English teaching. Suitable for English teachers of students aged 11 to 16 years
