The Adult Learner Malcolm S. Knowles, Elwood F. Holton III, Richard A. Swanson, RICHARD SWANSON, Petra A. Robinson, 2020-12-20 How do you tailor education to the learning needs of adults? Do they learn differently from children? How does their life experience inform their learning processes? These were the questions at the heart of Malcolm Knowles' pioneering theory of andragogy which transformed education theory in the 1970s. The resulting principles of a self-directed,

experiential, problem-centred approach to learning have been hugely influential and are still the basis of the learning practices we use today. Understanding these principles is the cornerstone of increasing motivation and enabling adult learners to achieve. The 9th edition of *The Adult Learner* has been revised to include: Updates to the book to reflect the very latest advancements in the field. The addition of two new chapters on diversity and inclusion in adult learning, and andragogy and the online adult learner. An updated supporting website. This website for the 9th edition of *The Adult Learner* will provide basic instructor aids including a PowerPoint presentation for each chapter. Revisions throughout to make it more readable and relevant to your practices. If you are a researcher, practitioner, or student in education, an adult learning practitioner, training manager, or involved in human resource development, this is the definitive book in adult learning you should not be without.

Crime, Shame and Reintegration John Braithwaite, 1989-03-23 *Crime, Shame and Reintegration* is a contribution to

general criminological theory. Its approach is as relevant to professional burglary as to episodic delinquency or white collar crime. Braithwaite argues that some societies have higher crime rates than others because of their different processes of shaming wrongdoing. Shaming can be counterproductive, making crime problems worse. But when shaming is done within a cultural context of respect for the offender, it can be an extraordinarily powerful, efficient and just form of social control. Braithwaite identifies the social conditions for such successful shaming. If his theory is right, radically different criminal justice policies are needed - a shift away from punitive social control toward greater emphasis on moralizing social control. This book will be of interest not only to criminologists and sociologists, but to those in law, public administration and politics who are concerned with social policy and social issues.

Historical Painting Techniques, Materials, and Studio Practice Arie Wallert, Erma Hermens, Marja Peek, 1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled Historical Painting Techniques, Materials, and Studio Practice at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Sourcebook of Family Theory and Research Vern L. Bengtson, 2005 Now available in paperback for classroom use! This comprehensive text provides a rich source of perspectives on theorising about the family for scholars, researchers, and students. Another of the book's strengths is the emphasis on multimethod approaches in family research. The book covers an impressive range of topics and issues - marital happiness, adjustment of children in divorce marriages, gay marriage, sibling ties, ethnic families of colour, stepfamilies, aggression culture, work and family, religion, and social policy, to name a few. In summary, this superb volume is highly recommended and amply reflects the many contemporary perspectives on the family. - Philip Siebler, Monash University, Victoria Sponsored by the National Council on Family Relations, the Sourcebook of Family Theory and Research is the reference work on theory and methods for family scholars and students around the world. This volume provides a diverse, eclectic, and paradoxically mature approach to theorizing and demonstrates how the development of theory is crucial to the future of family research. The Sourcebook reflects an interactive approach that focuses on the process of theory building and designing research, thereby engaging readers in doing theory rather than simply reading about it. An accompanying website offers additional participation and interaction in the process of doing theory and making science. Editors Vern L. Bengtson, Alan C. Acock, Katherine R. Allen, Peggye Dilworth-Anderson, and David M. Klein have brought together a prominent group of diverse contributors ranging in race and ethnicity, age and seniority, and gender and sexual orientation. The Sourcebook begins with a section that sets the context for future family research. The subsequent sections explore changing family patterns, changing family interactions within and across generations, and families and larger social forces. A concluding section discusses issues of teaching family theories and research. Key Features Focuses on the process rather than the outcomes of family theory and research methods Emphasizes the value of multi-methods approaches in family research by integrating theory development with the development of research methods Differs from many other publications on family research by describing the development of new ideas rather than just summarizing existing findings The interactive Web site and the special feature boxes within the chapters engage readers with theory and methodology. Boxed features include Case Studies, Spotlights on Theory, Spotlights on Methods, and a Discussion and Extension sections. Represents a Who's Who of family researchers with contributions from many of the best researchers in the family realm The Sourcebook will be an excellent addition to any academic library. It is an authoritative reference for scholars and researchers in Human Development and Family Studies, Sociology, Social Work, and Psychology. In addition, the Sourcebook can also be used in graduate courses on family theory and methodology.
