*Rick Stein's Seafood Lovers' Guide* Rick Stein,2019-06-06 Rick (and Chalky his trusty dog) discover great seafood dishes and small delicacies amongst the tidal estuaries, shingle banks and rocky shores of Britain. Rick travels from the bleak Suffolk coast where fishermen scrape a living catching cod to the wild, clear waters of Scotland's lochs bringing back an abundance of stories and imaginative, colourful recipes. The book is organised geographically with each chapter covering one of the regions featured in the BBC series. Rick describes the fish-catching and fish-eating traditions of each area as well as details of the local life, legends and literature. He singles out local delicacies and includes six to eight fish and seafood recipes per chapter. Each chapter is illustrated with stunning food and landscape photography and ends with an area map and a guide to a small selection of the best hotels, restaurants, pubs and specialist suppliers (including information on extra locations, not featured in the series). 'Just as I do in the restaurant to keep ahead of the game, I look for the best suppliers, the freshest fish and who catches them. In a way, this is what this series is about, the fish I love, for all sorts of reasons, not just taste or fashion, where they come from and the people who catch them and the best way to cook them. As a result of looking around the country for the best seafood, it's turned out to be a love affair with the changing coastline of Great Britain and Ireland and the business of going to sea in small boats to catch the freshest prime fish we have.' Rick Stein

**The Oxford Companion to Food** Alan Davidson,2014 Twenty years in the making, the first edition of this bestselling reference work appeared in 1999 to worldwide acclaim. Combining serious and meticulously researched facts with entertaining and witty commentary, it has been deemed unique by chefs and reviewers around the globe. Retaining Alan Davidson's wisdom and wit, this new edition also covers the latest developments across the whole spectrum of this subject. Tom Jaine has taken the opportunity to update the text and alert readers to new perspectives in food studies. There is new coverage on attitudes towards food consumption, production and perception, such as food and genetics, food and sociology, and obesity. New entries include terms such as convenience foods, gastronomy, fusion food, leftovers, obesity, local food, and many more. There are also new entries on important personalities who are of special significance within the world of food, among them Clarence Birdseye, Henri Nestle, and Louis Pasteur. Now in its third edition the Companion maintains its place as the foremost food reference resource for study and home use.

I love the moistness of roasted monkfish tail cooked just so in the roasting oven. And it's great that a rich shellfish and tomato stew can slowly cook in the top of the simmering oven, gently bringing out the wonderful rich flavours from the shells of the crustacea.' It is his trailblazing approach to cooking seafood that has made Mitchell Tonks a household name amongst seafood lovers. Now, as the proud possessor of a new black four-oven Aga, Mitchell has written a wonderful seafood book for all Aga owners. A book full of recipes that reflect his philosophy that cooking should be a source of enjoyment, not drudgery.
