The Garden of Rama Arthur C. Clarke,Gentry Lee,2013-08-29 In the year 2130 a mysterious spaceship, Rama, arrived in the solar system. It was huge - big enough to contain a city and a sea - and empty, apparently abandoned. By the time Rama departed for its next, unknown, destination many wonders had been uncovered, but few mysteries solved. Only one thing was clear: everything the enigmatic builders of Rama did, they did in threes. Eighty years later the second alien craft arrived in the solar system. This time, Earth had been waiting. But all the years of preparation were not enough to unlock the Raman enigma. Now Rama II is on its way out of the solar system. Aboard it are three humans, two men and a woman, left behind when the expedition departed. Ahead of them lies the unknown, a voyage no human has ever experienced. And at the end of it - and who could tell how many years away that might be? - may lie the truth about Rama...

*Ramayana* Valmiki,2005-02 Rama, the crown prince of the City of Ayodhya, is a model son and warrior. He is sent by his father the king to rescue a sage from persecution by demons, but must first kill a fearsome ogress. That done, he drives out the demons, restores peace, and attends a tournament in the neighboring city of Mithila; here he bends the bow that no other warrior can handle, winning the prize and the hand of Sita, the princess of Mithila.Valm'ki's Ramayana is one of the two great national epics of India, the source revered throughout South Asia as the original account of the career of Rama, ideal man and incarnation of the great god Vishnu. The first book, Boyhood, introduces the young hero Rama and sets the scene for the adventures ahead. It begins with a fascinating excursus on the origins and function of poetry itself.For more on this title and other titles in the Clay Sanskrit series, please visit <http://www.claysanskritlibrary.org>

*The Lettered City* Angel Rama,1996 Posthumously published to wide acclaim, The Lettered City is a vitally important work by one of Latin America's most highly respected theorists. Angel Rama's groundbreaking study--presented here in its first English translation--provides an overview of the power of written discourse in the historical formation of Latin American societies, and highlights the central role of cities in deploying and reproducing that power. To impose order on a vast New World empire, the Iberian monarchs created carefully planned cities where institutional and legal powers were administered through a specialized cadre of elite men called letrados; it is the urban nexus of lettered culture and state power that Rama calls the lettered city. Starting with the colonial period, Rama undertakes a historical analysis of the hegemonic influences of the written word. He explores the place of writing and urbanization in the imperial designs of the Iberian colonialists and views the city both as a rational order of signs representative of Enlightenment progress and as the site where the Old World is transformed--according to detailed written instructions--in the New. His analysis continues by recounting the social and political challenges faced by the letrados as their roles in society widened to include those of journalist, fiction writer,

essayist, and political leader, and how those roles changed through the independence movements of the nineteenth century. The coming of the twentieth century, and especially the gradual emergence of a mass reading public, brought further challenges. Through a discussion of the currents and countercurrents in turn-of-the-century literary life, Rama shows how the city of letters was finally revolutionized. Already crucial in setting the terms for debate concerning the complex relationships among intellectuals, national formations, and the state, this elegantly written and translated work will be read by Latin American scholars in a wide range of disciplines, and by students and scholars in the fields of anthropology, cultural geography, and postcolonial studies.
