

The Boy Who Loved To Draw Benjamin West

Ensheng Dong

Boy Who Loved to Draw Barbara Brenner,2003-06-23 When Benjamin West was seven years old, the only thing in the world he wanted to do was draw pictures. For a time, that got him into a peck of trouble. Papa wasn't pleased when Benjamin borrowed his best quill pen. Mama wasn't happy that Benjamin would rather sketch the cows than milk them. And Grimalkin, the family cat, was not keen on being the source for paintbrush hairs! Truth was, there was nothing Benjamin cared more about than art, and that led him to some surprising adventures. Here, in lively easy-to-read words and vivid pictures, is the engaging true story of Benjamin West, the farmboy from colonial Pennsylvania who grew up to become the first world-famous American artist and a friend to Benjamin Franklin and the king of England.

Benjamin West and His Cat Grimalkin Marguerite Henry,2016-07-05 With his beloved black cat Grimalkin as his constant companion, the young Quaker boy Benjamin West discovers and develops his talent as an artist.

The Brain Power Story Hour Nancy J. Polette,2014-01-10 While many texts explore ways to plan and implement story times in both school and public libraries, until now no work has brought together extensive book talks and follow-up activities specifically designed to develop thinking skills in young children. This innovative study offers age-appropriate book suggestions with related questions and activities tailored to a variety of thinking skills, including verbal or linguistic thinking, divergent and creative thinking, analytical and mathematical thinking, visual or spatial thinking, and many others. The program presented in this volume was successfully developed and implemented in the preschool/kindergarten laboratory school of Lindenwood University in St. Charles, Missouri, with 90 percent of the participating children selected for gifted programs in both public and private schools. Ideal for children's librarians, school librarians, teachers of early childhood gifted programs, parents, and homeschoolers, this study provides the tools for making any story hour a brain power story hour.

What I Loved Siri Hustvedt, 2004-03-01 A powerful and heartbreaking novel that chronicles the epic story of two families, two sons, and two marriages Siri Hustvedt's *What I Loved* begins in New York in 1975, when art historian Leo Hertzberg discovers an extraordinary painting by an unknown artist in a SoHo gallery. He buys the work; tracks down the artist, Bill Wechsler; and the two men embark on a life-long friendship. Leo's story, which spans twenty-five years, follows the evolution of the growing involvement between his family and Bill's-an intricate constellation of attachments that includes the two men; their wives, Erica and Violet; and their children, Matthew and Mark. The families live in the same building in New York, share a house in Vermont during the summer, keep up a lively exchange of thoughts and ideas, and find themselves permanently altered by one another. Over the years, they not only enjoy love but endure loss-in one case sudden, incapacitating loss; in another, a different kind, one that is hidden and slow-growing, and which insidiously erodes the fabric

of their lives. Intimate in tone and seductive in its complexity, the novel moves seamlessly from inner worlds to outer worlds, from the deeply private to the public, from physical infirmity to cultural illness. Part family novel, part psychological thriller, *What I Loved* is a beautifully written exploration of love, loss, and betrayal-and of a man's attempt to make sense of the world and go on living.

Creative Thinking and Arts-based Learning Joan P. Isenberg,Mary Renck Jalongo,2006 *Creative Thinking and Arts-Based Learning* prepares preservice and inservice teachers to know why children's creative thinking and play are so important, know about children's play and creative thinking, and also know how to provide these experiences within the curriculum. It contains extensive coverage of the roles, responsibilities, and strategies that lead to a more child-centered, play-based curriculum. An Applied Approach Many instructional guidelines and classroom strategies are presented throughout the text for integrating creative thinking and play into learning. Cases about preschoolers, K-2nd graders, and 3rd-4th graders open each chapter and show readers how teachers infuse the arts into learning. Meeting Standards. This new feature discusses how to provide for creativity in classrooms while also meeting state and national standards. Frequently Asked Questions. Another new feature poses common questions about issues, such as what materials and resources to use, how to adapt environments for diverse learners, and how to foster and assess creative thought. Misconceptions are dispelled with research-based answers. A Theoretical Approach Solid theory underlies all of the content. The authors' experience as university professors and practitioners is evident in their clear presentation of relevant theory. A Reflective Approach Teacher's Reflections in each chapter tell readers what other preservice and inservice teachers are thinking and doing in their classrooms relative to their experiences with the arts.
