**Philosophy and Faith** Gary Clifford Gibson,2008-07-18 A consideration of select cosmology theories by a philosophically minded Christian. Questions about the nature of the Universe, life and the relationship to God in the passage of space-time as an individual life grows through the physical process of life being a part of the process of the Universe. The works of Schopenhauer and Plotinus and contemporary cosmology are featured here as the author provides Christian creation contemplations.

**Passwords to Paradise** Nicholas Ostler,2016-02-23 In the beginning was the Word, and the Word was with God, and the Word was God. So opens the Gospel of John, an ancient text translated into almost every language, at once a compelling and beguiling metaphor for the Christian story of the Beginning. To further complicate matters, the words we read now are in any number of languages that would have been unknown or unrecognizable at the time of their composition. The gospel may have

been originally dictated or written in Aramaic, but our only written source for the story is in Greek. Today, as your average American reader of the New Testament picks up his or her Bible off the shelf, the phrase as it appears has been translated from various linguistic intermediaries before its current manifestation in modern English. How to understand these words then, when so many other translators, languages, and cultures have exercised some level of influence on them? Christian tradition is not unique in facing this problem. All religions--if they have global aspirations--have to change in order to spread their influence, and often language has been the most powerful agent thereof. *Passwords to Paradise* explores the effects that language difference and language conversion have wrought on the world's great faiths, spanning more than two thousand years. It is an original and intriguing perspective on the history of religion by a master linguistic historian.

**Religion in the Twenty-first Century** Mary Pat Fisher, 1999 This survey considers the global religious situation at the approach of the new millennium. It provides an introduction to a variety of new religious movements, and examines the role of the Interfaith Movement as well as the use of modern technology.

*The Way of the Buddha*, 1995 On Buddhist art and antiquity.

**Activity Assemblies to Promote Peace** Elizabeth Peirce, 2008 Teaching children about peace and peaceful strategies, learning to handle conflict creatively, tackling injustice and racial prejudice, is imperative and relevant for today's children. Packed with topical ideas for the primary school teacher, this book offers material for 40+ primary assemblies, easy to use in an assembly or for preparation. A great resource to dip into for one-off assemblies or follow as a programme of themed assemblies for a term, it is helpfully split into topic areas on peace which include: Cooperation Children's writing Places and challenges Assembly plays Environment Stories. Each assembly starts with a drama, story or interactive activity, followed by a prayer and 'reflection' and a hymn or a song. There are suggestions for questions and ideas for developing the theme which include using masks and puppets, as well as stories from six major world religions: Christianity, Buddhism, Hinduism, Islam, Judaism and Sikhism. The book will be invaluable to headteachers, deputy headteachers, primary schools teacher or any trainee teacher who is looking for a collection of assembly ideas that promote peace, tolerance and understanding in the widest possible context and in a variety of different ways.

**Logical Criticism of Buddhist Doctrines** Avi Sion, 2017-12-17 *Logical Criticism of Buddhist Doctrines* is a 'thematic compilation' by Avi Sion. It collects in one volume the essays that he has written on this subject over a period of some 15 years after the publication of his first book on Buddhism, *Buddhist Illogic*. It comprises expositions and empirical and logical critiques of many (though not all) Buddhist doctrines, such as impermanence, interdependence, emptiness, the denial of self or soul. It includes his most recent essay, regarding the five skandhas doctrine.

**Religion, Intolerance, and Conflict** Steve Clarke,Russell Powell,Julian Savulescu,2013-05-30 The relationship between religion, intolerance and conflict has been the subject of intense discussion, particularly in the wake of the events of 9-11 and the ongoing threat of terrorism. This book contains original papers written by some of the world's leading scholars in anthropology, psychology, philosophy, and theology exploring the scientific and conceptual dimensions of religion and human conflict. Authors investigate the following themes: the role of religion in promoting social cohesion and the conditions under which it will tend to do so; the role of religion in enabling and exacerbating conflict between different social groups and the conditions under which it will tend to do so; and the policy responses that we may be able to develop to ameliorate violent conflict and the limits to compromise between different religions. The book also contains two commentaries that distill, synthesize and critically evaluate key aspects of the individual chapters and central themes that run throughout the volume. The volume will be of great interest to all readers interested in the phenomenon of religious conflict and to academics across a variety of disciplines, including religious studies, philosophy, psychology, theology, cognitive science, anthropology, politics, international relations, and evolutionary biology.

**Islam** Fatma Amer,2007 Part of the 'World of Faiths' series, this book looks at Islam. It features its key beliefs, how it is practised around the world, religious buildings and places, key figures and leaders, and festivals and traditions.

The World Religions Reader Gwilym Beckerlegge,2001 Gathers together material on six of the world's most influential faiths, with readings drawn from a broad range of historical and contemporary sources.

*The Quantum Mind and Healing* Arnold Mindell,2004-03-01 Quantum Physics You Can Use There is a force underlying all action and circumstance in the universe and you have the ability to tap into this force, interact with it, and use it to heal yourself. This is science talking. Specifically, this is Dr. Arnold Mindell's new model of medicine based on the mind-blowing findings of a host of quantum physicists--pioneers who are reconfiguring the landscape of our world and belief structure on an almost daily basis. Dr. Mindell is an internationally recognized psychotherapist whose ahead-of-the-curve work led him to found a new school of therapy called Process Oriented Psychology. A graduate of MIT and the Jungian Institute of Zurich, Dr. Mindell is an in-demand speaker at conferences worldwide as well as the author of sixteen previous books. Despite his many achievements, it is not a stretch to say that *The Quantum Mind and Healing* is quite probably Mindell's most important and best work yet. In it, Mindell explains that you can use the discoveries of quantum physics to access your body's own intelligence and self-healing abilities. Embracing both conventional and alternative medicine, he shows that to truly heal you need both medicine and your own natural wisdom. *The Quantum Mind and Healing* goes well beyond theory, giving you simple techniques, guided exercises, and precise explanations of vital concepts that will enable you to uncover, understand,

and eliminate the root causes of even your chronic symptoms and illnesses. With applications beyond physical healing, The Quantum Mind and Healing can also help you overcome long-term emotional and behavioral patterns that may be keeping you from living your greatest potential.

**"The Human Pathway"** Jim Larsson,2010-11-15 Jim Knut Larsson establishes that the foundation for freewill, meaning and purpose is anchored in the latest findings in quantum mechanics and cosmology-empowering us to create the future. The Human Pathway is destined to become the catalyst for a transformation in politics, justice, government, economics and spiritualism. What choices does humanity need to make now, in order to avoid destruction? What goals can we set up to maximize meaning and purpose both for the individual and also for all of humanity? The Human Pathway might be the most important, inspiring and interesting book you will ever read. Our future depends upon your participation! Also included as an addendum: What to do in case of arrest! It could save your life or ... someone close to you! A must read! Some more questions ... What is enlightenment? Why the earth created humans? What would be the ultimate goals for humanity? How can you unleash your creative powers and create your own future? Why every act, movement and thought is a manifestation of freewill and why it affects the evolution of the universe? Why the living standard in the US declines daily? Why there are more than 3 million people in jail and more than 50 million with a criminal record? People in America always talk about they. Back then, 'they' castrated people who were homosexuals. They had strict laws against sodomy. They did radiation experiments on the population. The question is; who are they? Revelation: Does it matter if you are resurrected at some point in the future? It is your desire to know the truth that drives your desire for resurrection. You will live forever as long as humanity-or if human intelligence lives on forever-because what is living, even if your ego is dead, is you being one with humanity. Individuals only manifest by their clinging to their egos. This clinging prevents you from becoming creative, happy and blissful. If you get rid of your ego, which should be everybody's goal, you will dedicate yourself to the eternal now and to serve humanity. A great quest is to help humanity reach its highest potential and to achieve absolute knowledge, finish the creation of the universe and acquire the power to recreate everything that existed forever. Then, at that point, you will be resurrected! However there is a final revelation and, if it is revealed to you, it will give you absolute knowledge and peace. This final revelation is the logical conclusion of this book. Understand what is written and the truth will be revealed to you. When it is, you will understand that it cannot be directly communicated and understood by others unless they have the same revelation! You will know that you have the final knowledge when you get the revelation and you don't need to seek validation for it! However, you want to share it with others! Study the revelations in this book and hopefully you will get it. You will know it when you do. We need to dismantle many laws and make society free again. We must get the government out

of our lives. The benefit you get from reading my book is that you will be able to see through the myths. When you read my book, you will become an enlightened person. Actually after you read this book you will say, I'm enlightened now. You will have revelations that will make you enjoy life more and become a happier person, but also you will no longer be seduced by propaganda. This, in the end, is a book of cosmic and spiritual enlightenment and enlightenment with regard to politics, economics and justice. What does it mean to be an enlightened person who helps secure the future prosperity and excitement of living for yourself and for humanity as a whole? Another bonus from this book is that you may no longer fear death. You will become a participant in the conversation and the future goals and aspirations of humanity.
