Production and Operations Management Systems Sushil Gupta,Martin Starr,2014-02-07 Since the beginning of mankind on Earth, if the busyness process was successful, then some form of benefit sustained it. The fundamentals are obvious: get the right inputs (materials, labor, money, and ideas); transform them into highly demanded, quality outputs; and make it available in time to the end consumer. Illustrating how operations relate to the rest of the organization, Production and Operations Management Systems provides an understanding of the production and operations management (P/OM)

functions as well as the processes of goods and service producers. The modular character of the text permits many different journeys through the materials. If you like to start with supply chain management (Chapter 9) and then move on to inventory management (Chapter 5) and then quality management (Chapter 8), you can do so in that order. However, if your focus is product line stability and quick response time to competition, you may prefer to begin with project management (Chapter 7) to reflect the continuous project mode required for fast redesign rapid response. Slides, lectures, Excel worksheets, and solutions to short and extended problem sets are available on the Downloads / Updates tabs. The project management component of P/OM is no longer an auxiliary aspect of the field. The entire system has to be viewed and understood. The book helps students develop a sense of managerial competence in making decisions in the design, planning, operation, and control of manufacturing, production, and operations systems through examples and case studies. The text uses analytical techniques when necessary to develop critical thinking and to sharpen decision-making skills. It makes production and operations management (P/OM) interesting, even exciting, to those who are embarking on a career that involves business of any kind.

Loose Leaf for New Products Management C. Merle Crawford, C. Anthony Di Benedetto, 2020-01-21 Crawford's New Product Management 12e provides the management approach to teaching new products, with the perspective of marketing. Adopters of previous editions will notice that the format is slimmed down to 18 chapters. This streamlined presentation focuses on the topics that will be of most importance and interest to new product managers. Significant updates can be found throughout, and great pains have been taken to present the best practices of industry and relevancy to readers. Past adopters of New Products Management will notice major changes in this edition. While there are some changes in virtually every chapter, some of the most substantial changes are as follows: 1. We have made major additions and updates to the cases to provide more plentiful and more current examples. We retired several cases from the previous edition, wrote many new cases, and thoroughly updated many others. New cases for this edition include: Oculus Rift, Adidas Parley sustainable running shoes, Google Glass, Indiegogo, Tesla, Chipotle, Chick-fil-A, Corporate Social Responsibility at Starbucks, and many others. As always, we aim to offer a mix of high tech products and consumer products and services in the set of cases. 2. In addition, we have substantially updated examples throughout the text wherever possible. We try to make use of illustrative examples that will resonate with today's students wherever possible. Of course, we welcome the reader's comments and suggestions for improvement. 3. There continues to be much new research in new products, and we have tried to stay current on all of these topics. Readers will notice new or expanded coverage of portfolio management, value curve creation, the TRIZ method, crowd-sourcing, crowdfunding, observational research, open innovation, organizational structure, 3D modeling, beta testing, sustainable product development, and frugal innovation, among other topics. 4. We continue the practice of referencing Web sites of interest throughout the text, and we have added the web addresses for several useful YouTube

videos and other resources.

Five-Ingredient Dinners America's Test Kitchen,2021-08-17 Test cooks share their favorite low-effort, high-reward complete weeknight dinners, most ready in an hour or less. Imagine surveying your pantry or fridge and realizing you already have every ingredient you need to make any number of fast, flavor-packed meals. Sounds like a dream? These back-pocket dinners make it a reality, with recipes that transform foods such as a rotisserie chicken, a baguette, hummus, or quinoa into full meals using just five ingredients (plus salt, pepper, and fat) that require little in the way of planning. What these recipes lack in ingredients, they more than make up for in flavor and creativity. We use simple techniques to our advantage to coax the maximum amount of oomph out of each component: Turn rotisserie chicken into a cheesy, melty tart with frozen spinach, Brie, and store-bought crust Shape lemony meatballs from ground chicken and quinoa--given a flavor boost from garlicky hummus that doubles as the base for a sauce Get resourceful with our Grilled Tofu with Charred Broccoli, Peanut Sauce, and Crispy Shallots, repurposing the often drained-away shallot frying oil to coat the broccoli before grilling for an added layer of savoriness With each recipe, a test cook's commentary gives an inside peek into the recipe creation process, whether offering a tip for using a high-impact ingredient like red curry paste or oil-packed sun-dried tomatoes (we help you compile a treasure trove of useful flavor bombs) or an imaginative technique (such as mincing carrot tops for a garnish). These recipes and tips will have you looking at your pantry with fresh eyes.

Rethinking Prestige Branding Wolfgang Schaefer,JP Kuehlwein,2015-05-03 What makes someone covet a Kelly bag?

Why are Cirque Du Soleil or Grey Goose so successful despite breaking all the conventions of their categories? What does Gucci's approach to marketing have in common with Nespresso's? And why do some people pay a relative fortune for Renova toilet paper or Aesop detergent even though they hardly ever 'advertise' and seem to have none of the 'functional performance advantages' conventional marketers would seek to demonstrate? Prestige brand experts JP Kuehlwein and Wolfgang Schaefer have dedicated themselves to studying what drives the success of prestige brands. Rethinking Prestige Branding collects their insights. Uncovering the secrets of why and how some brands are created more equal than others, Rethinking Prestige Branding includes over 100 case studies from Apple and Abercrombie & Fitch to Tate Modern and Tesla. Rather than re-telling brand success stories or re-hashing long-standing marketing principles, it takes readers on a colourful journey behind the scenes of today's marketing pros. This book will fascinate marketing professional just as much as those who are simply curious as to how premium brands tick.

How to Be a Capitalist Without Any Capital Nathan Latka, 2019-03-07 You don't need to be university educated, have money, be creative, or even have an idea to get rich. You just need to be willing to break the rules. *How to Be a Capitalist Without Any Capital* will teach you how to be a modern opportunist - investor, entrepreneur, or side hustler - by breaking these four golden rules of the old guard: 1. Focus on one skill: Wrong. Don't cultivate one great skill to get ahead. In today's business world, success goes to the multitaskers. 2. Be unique: Wrong. The way to get rich is not by launching a new idea but by aggressively copying others and then adding your own twist. 3. Focus on one goal: Wrong. Focus instead on creating a system to produce the outcome you want, not just once, but over and over again. 4. Appeal to the masses: Wrong. The masses are broke (\$4k average net worth in America?). Let others cut a trail through the jungle so you can peacefully walk in and capitalize on their hard work. By rejecting these defunct rules and following Nathan Latka's unconventional path, you can copy other people's ideas shamelessly, bootstrap a start-up with almost no funding, invest in small local businesses for huge payoffs, and reap all the benefits.

Where the Light Gets In Kimberly Williams-Paisley, 2016-04-05 “The relationship between a mother and daughter is one of the most complicated and meaningful there is. Kimberly Williams-Paisley writes about her own with grace, truth, and beauty as she shares her journey back to her mother in the wake of a devastating illness.” —Brooke Shields Many know Kimberly Williams-Paisley as the bride in the popular Steve Martin remakes of the *Father of the Bride* movies, the calculating Peggy Kenter on Nashville, or the wife of country music artist, Brad Paisley. But behind the scenes, Kim was dealing with a tragic secret: her mother, Linda, was suffering from a rare form of dementia that slowly crippled her ability to talk, write and eventually recognize people in her own family. *Where the Light Gets In* tells the full story of Linda’s illness—called primary progressive aphasia—from her early-onset diagnosis at the age of 62 through the present day. Kim draws a candid picture of the ways her family reacted for better and worse, and how she, her father and two siblings educated themselves, tried to let go of shame and secrecy, made mistakes, and found unexpected humor and grace in the midst of suffering. Ultimately the bonds of family were strengthened, and Kim learned ways to love and accept the woman her mother became. With a moving foreword by actor and advocate Michael J. Fox, *Where the Light Gets In* is a heartwarming tribute to the often fragile yet unbreakable relationships we have with our mothers.

Filed Rate Doctrine LandMark Publications, 2017-05-04 THIS CASEBOOK contains a selection of U. S. Court of Appeals decisions that discuss, interpret and apply the filed-rate doctrine. The selection of decisions spans from 2010 to the date of publication. Under the filed rate doctrine, any 'filed rate' -- that is, one approved by the governing regulatory agency -- is per se reasonable and unassailable in judicial proceedings brought by ratepayers. *Wegoland Ltd. v. NYNEX Corp.*, 27 F.3d 17, 18

(2d Cir.1994). The doctrine is grounded on two rationales: first, that courts should not undermine[] agency rate-making authority by upsetting approved rates (the principle of nonjusticiability); and, second, that litigation should not become a means for certain ratepayers to obtain preferential rates (the principle of nondiscrimination). *Marcus v. AT & T Corp.*, 138 F.3d 46, 58, 61 (2d Cir.1998); see generally *Keogh v. Chi. & Nw. Ry. Co.*, 260 U.S. 156, 43 S.Ct. 47, 67 L.Ed. 183 (1922).The doctrine reaches both federal and state causes of action and protects rates approved by federal or state regulators. *Wegoland*, 27 F.3d at 20. Its application does not depend on the nature of the cause of action the plaintiff seeks to bring or the culpability of the defendant's conduct or the possibility of inequitable results. *Marcus*, 138 F.3d at 58. Whenever a ratepayer's claim against a rate filer would implicate either the non-justiciability principle or the nondiscrimination principle, it is barred. *Id.* at 59. *Rothstein v. Balboa Ins. Co.*, *ibid.*
