**The Palgrave Handbook of Contemporary Heritage Research** Emma Waterton,Steve Watson,2015 This book explores heritage from a wide range of perspectives and disciplines and in doing so provides a distinctive and deeply relevant survey of the field as it is currently researched, understood and practiced around the world. Furthermore it establishes and develops through its various sections and chapters an accessible and clearly presented vision of heritage as a cultural process designed for use by students, advance scholars and practitioners alike. This book provides both critical insight and food for thought, directing the reader to key texts in the various aspects of the field and charting a course for future research--

Biography, Identity, and Schooling Ivor Goodson,Rob Walker,1991 In this book the authors relate their work on curriculum reform to the succession of changes in the sociology of education, using it as a starting point for setting new

directions. The book is a restatement of the central role of people in educational systems.

*Research on Teacher Thinking (RLE Edu N)* James Calderhead, Pam Denicolo, Christopher Day, 2012-05-04 This is a companion volume to the editors' *Insights into Teachers' Thinking and Practice* (Falmer Press, 1999) and seeks to carry the discussion on further illustrating that there is a continuing intensity of thought, activity and debate on how to conceptualise research on teacher thinking, and thus generate knowledge for further understanding and action. The ethical questions on undertaking research on the inner lives of teachers remain unresolved. The international team present chapters which investigate the relationship between the researcher and the researched, and the relevance and role of research in teacher development. The papers are not presented as 'best practice' for such definitions would be inevitably value laden. Rather, they are indications and anticipations of key areas for the development of understanding of teachers' thinking and actions in the 1990s.

**Studying Curriculum** Ivor Goodson, 1994-01-01

Design by IKEA Sara Kristoffersson, 2014-10-23 Sara Kristoffersson's compelling study provides the first sustained critical history of IKEA. Kristoffersson argues that the company's commercial success has been founded on a neat alignment of the brand with a particular image of Swedish national identity - one that is bound up with ideas of social democracy and egalitarianism - and its material expression in a pared-down, functional design aesthetic. Employing slogans such as "Design for everyone" and "Democratic design", IKEA signals a rejection of the stuffy, the 'chintzy', and the traditional in both design practices and social structures. Drawing on original research in the IKEA company archive and interviews with IKEA personnel, *Design by IKEA* traces IKEA's symbolic connection to Sweden, through its design output and its promotional materials, to examine how the company both promoted and profited from the concept of Scandinavian Design.

American Contemporary Furniture Marisa Bartolucci, Cathy Lang Ho, 2000 The most visually stimulating, cutting-edge presentation of contemporary furniture design in America ever published, this book presents in unprecedented graphic detail the work of the most promising American furniture designers of today and beyond. Here, as you view the extraordinary work of Portland, Maine's Angela Adams, New York City's Harry Allen and Karim Rashid, Minneapolis's Blu Dot Design, San Francisco's Jeff Covey-- and more than 70 others-- you'll discover why Americans have advanced to the forefront of the world's contemporary furniture design community. A sourcebook of great utility for the trade, it also serves as a tremendously informative guide for style-conscious consumers and students of design.

*Modern Interiors in Europe and America* Herbert Hoffmann, 1930

Homo Aestheticus Luc Ferry, 1993 Can subjective, individual taste be reconciled with an objective, universal standard? In *Homo Aestheticus*, Luc Ferry argues that this central problem of aesthetic theory is fundamentally related to the political

problem of democratic individualism. Ferry's treatise begins in the mid-1600s with the simultaneous invention of the notions of taste (the essence of art as subjective pleasure) and modern democracy (the idea of the State as a consensus among individuals). He explores the differences between subjectivity and individuality by examining aesthetic theory as developed first by Kant's predecessors and then by Kant, Hegel, Nietzsche, and proponents of the avant-garde. Ferry discerns two moments of the avant-garde aesthetic: the hyperindividualistic iconoclasm of creating something entirely new, and the hyperrealistic striving to achieve an extraordinary truth. The tension between these two, Ferry argues, preserves an essential element of the Enlightenment concern for reconciling the subjective and the objective—a problem that is at once aesthetic, ethical, and political. Rejecting postmodern proposals for either a radical break with or return to tradition, Ferry embraces a postmodernism that recasts Enlightenment notions of value as a new intersubjectivity. His original analysis of the growth and decline of the twentieth-century avant-garde movement sheds new light on the connections between aesthetics, ethics, and political theory.
