**A Patriot's History of the United States** Larry Schweikart,Michael Patrick Allen,2004-12-29 For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

A guide to the world like no other, this vivid and comprehensive book offers the best of National Geographic and more: science, nature, history, world cultures, geography, and the environment, illustrated with amazing photography, fascinating infographics, and maps created by expert cartographers. Highlights this year include a sneak preview of the James Webb telescope, due to launch in 2021; an in-depth look at the global factors influencing immigration around the world; a brand-new wildflower guide; a guided tour of the most interesting moons of our solar system; a beautiful infographic on how jellyfish eat; and a feature on lithium, the fascinating mineral central to the work of this year's Nobel prizewinner in chemistry. Beginning with top trending topics of 2021, including a special focus on biodiversity, the book is divided into lively chapters including Exploration & Adventure, This Planet & Beyond, Life on Earth, and The Science of Us. Recurring features include highlights from NG explorers, favorite photos from National Geographic's celebrated Instagram

account, and Quizmaster trivia questions for each chapter. Geniuses of past and present highlighted this year include Jane Goodall, Amelia Earhart, and acclaimed conservationist Kris Tompkins, dedicated to preserving most of Chile's Patagonia. With new discoveries on every page, this cutting-edge book--called a category buster by Booklist--brings you, as Publishers Weekly puts it, all the things that National Geographic does best.
