**The Family Issues Reader** Constance L. Shehan, 2016-12-15 Carefully selected and edited by Constance L. Shehan, The Family Issues Reader is a new anthology of recent articles from one of the leading family science publications, the Journal of Family Issues (SAGE). The 47 articles in this collection follow the scope and sequence of family sociology and family relations courses, and provide a wide range of perspectives on families and intimate relationships. Focusing on families in the United States, the readings reflect a diversity of family experiences along dimensions of race, ethnicity, national origin, religion, rural-urban residence, gender, age, and sexual identity/orientation.

**Parenting Matters** National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Supporting the Parents of Young Children, 2016-12-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young

children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

De Gruyter Handbook of Business Families Michael Carney, Marleen Dieleman, 2023-01-30 The management field increasingly recognizes that most firms in the world are family firms and that these entities operate differently from the non-family firms on which most of our current management theories are based. The De Gruyter Handbook of Business Families brings together work from leading academics who explore emerging research themes relevant to business families, particularly drawing in new insights from adjacent disciplines that can advance the family business field. The handbook challenges the traditional notion of the single firm-single family that has characterized most early research on family business. Recognizing that families may simultaneously own or control multiple businesses as well as substantial wealth beyond these firms in the form of financial and non-financial assets, this handbook focuses on business families rather than the narrower construct of family business. The contributions in this handbook explore the relatively neglected dynamics between individuals with family ties that shape the interaction between family and business; business families with multiple businesses; how business families adopt formal rules and processes around their joint activities; and the institutionalization of wealth and business families in society. The De Gruyter Handbook of Business Families fills a gap in the family business research literature and is an essential reference work for researchers and graduate-level students in the area of business families.

**Sociology of Families** Cheryl Albers, 1999-03-11 Cheryl Albers' reader for use in family sociology courses is a cutting edge collection of articles about cutting edge topics. She addresses nine topics central and critical to family sociology and provided thoughtful articles from diverse perspectives for each, from adolescent childbearing to the construction of family policy. This volume of readings is where the students are. It could enrich any instructor's approach to the burning questions in the field of family sociology. Dana Vannoy, University of Cincinnati

**Visions of the 21st Century Family** Patricia Neff Claster,Sampson Lee Blair,2013-10-15 Through the use of a wide variety of methodological and theoretical perspectives, the family scholars in this volume provide considerable insight into the ways in which families are changing, adapting, and evolving. With research studies from around the world it is intended to provide a more global understanding of family change.

**Scholastics's A+ Guide to Research and Term Papers** Louise Colligan,1984-08 Contains grammar tips to improve communication skills. Includes a glossary of confusing words, punctuation pointers, capitalization, etc.

**Writing and Power** Candace Mitchell,2015-12-03 This book offers a much needed alternative to the more traditional texts used to teach writing instruction. Grounded in history, the book clarifies changing theoretical and practical approaches to teaching writing, critically assessing each approach in relation to the social and political movements of the day, both within and beyond the university. The author takes us inside the real world of writing instruction; not only from the viewpoint of instructor, but as seen through the eyes of students struggling to make sense of the expectations of writing class. Mitchell emphasizes that writing entails far more than putting words to paper, and delves into contextually variable culturally defined expectations, that include multiple linguistic forms - both oral and written - highlighting the complexity of writing(s), while engaging the reader in lively academic debates about language and society.

**Student Plagiarism in an Online World: Problems and Solutions** Roberts, Tim S.,2007-12-31 Twenty years ago, plagiarism was seen as an isolated misdemeanor, restricted to a small group of students. Today it is widely recognized as a ubiquitous, systemic issue, compounded by the accessibility of content in the virtual environment. *Student Plagiarism in an Online World: Problems & Solutions* describes the legal and ethical issues surrounding plagiarism, the tools and techniques available to combat the spreading of this problem, and real-life situational examples to further the understanding of the scholars, practitioners, educators, and instructional designers who will find this book an invaluable resource.

**Agents and Data Mining Interaction** Longbing Cao,Yifeng Zeng,Bo An,Andreas L. Symeonidis,Vladimir Gorodetsky,Frans Coenen,Philip S. Yu,2015-06-04 This book constitutes the thoroughly refereed and revised selected papers from the 10th International Workshop on Agents and Data Mining Interactions, ADMI 2014, held in Paris, France, in May 2014 as satellite workshop of AAMAS 2014, the 13th International Conference on Autonomous Agents and Multiagent

Systems. The 11 papers presented were carefully reviewed and selected from numerous submissions for inclusion in this volume. They present current research and engineering results, as well as potential challenges and prospects encountered in the respective communities and the coupling between agents and data mining.

*The Facts on File Guide to Research* Jeff Lenburg, 2014-05-14 The Facts On File Guide to Research is a comprehensive guide to doing thorough and accurate research. It includes a detailed listing of available resources and explains general research methods and proper citation of sources. An invaluable reference, this book helps researchers make use of the many new resources available today. Divided into four sections, this easy-to-use guide helps students and general readers prepare for research papers and class studies. Step-by-step guides, detailed explanations, and valuable appendixes covering style guides, such as APA, MLA, and The Chicago Manual of Style, combine to create an incredibly authoritative accessible reference.

Research Foundations of Human Development and Family Science Kathleen D. Dyer, 2022-02-21 Human Development and Family Science (HDFS) is an interdisciplinary and applied field that draws from developmental science, family science, and other social sciences. Research Foundations of Human Development and Family Science is a textbook that provides an introduction to the diverse scientific research methods that form the foundation of scholarship and practice in HDFS. In Part I, Kathleen D. Dyer explores science. She distinguishes empirical scientific research from common sense and from knowledge gained from personal experience. This section also includes a discussion of the strategies used by pseudoscience to exploit the well-deserved credibility of science, providing relevant examples. Part II examines systematic empiricism through sampling and measurement. HDFS scholars use a wide array of measurement tools, including self-report (interviews, questionnaires, and self-report tasks), observations (participant, naturalistic, and structured), objective tests, physiological measures, and several types of archival records. Part III introduces the use of study design to achieve falsifiability in scientific research, including an overview of various orientations to time used in research as well as four different study designs: qualitative, prevalence, correlational, and experimental. Finally, Part IV addresses the public verifiability of science, including how scientific consensus is developed, the use of literature reviews to identify convergence of evidence, and how scientific literacy translates into evidence-based professional practice. Illustrated throughout with studies foundational to the discipline as examples of the strategies described in the text, Research Foundations for Human Development and Family Science is a comprehensive, accessible core textbook for undergraduate research methods classes in HDFS. It introduces the discipline of HDFS and challenges students to understand the limitations of common sense and the threat of pseudoscience for those work professionally with children and families.

**Mindful Eating 101** Susan Albers, Psy.D., 2013-01-11 In this book, Dr. Susan Albers, brings her unique approach to

college students, their parents, and college staff. Using the principles of mindfulness, Dr. Albers presents a guide to healthy eating and self acceptance that will help readers navigate the weight obsessed, diet crazed, high pressured, fast food saturated college environment, establishing patterns of eating that will form the groundwork for a healthier life well beyond college. More than a new diet book or collection of superficial self-affirmations, this book gets at issues such as the importance of making informed choices and the value of self acceptance and good health.
