Why the Left Loses Kennedy, Paul,Manwaring, Rob,2018 Around the world, parties of the left and center-left have been struggling, losing ground to right-wing parties and various forms of reactionary populism. This book brings together a range of leading academics and experts on social democratic politics and policy to offer an international, comparative view of the changing political landscape. Using case studies from the United Kingdom, Germany, Spain, France, Australia and New Zealand contributors argue that despite different local and specific contexts, the mainstream center-left is beset by a range of common challenges. Analysis focuses on institutional and structural factors, the role of key individuals, and the atrophy of progressive ideas as interconnected reasons for the current struggles of the center-left.

**Ultimate Guide to Tractors** Jim Glastonbury,2010-04-15 Tractors, unique in their uses, have undergone thousands of changes over the years to become one of the most handy machines one can have, in any form. There have been so many amazing discoveries and inventions in the history of mankind that it would be difficult to place them in order of importance.

Many have revolutionized the way society works, and this could also be said of the humble tractor. Without it, it would be impossible to produce the vast amounts of food required by society today, and for this reason alone it must qualify as a small but essential cog in the vast machine that is the modern world. The earliest pioneer machines used steam traction rather than the new-fangled internal combustion engines, but technological break-throughs came thick and fast: diesel engines, Harry Ferguson's revolutionary three-point-hitch, sophisticated hydraulics, and the wonders of electronics in our own time. Henry Ford made tractors that small farmers could afford, International Harvester pioneered the 1920s Farmall - the first tractor able to cope with row crops - while Allis-Chalmers introduced pneumatic rubber tires in the 1930s. Nearly 30 years later the Steiger brothers invented an entirely new breed, the giant four-wheel-drive articulated super-tractor. This book covers more than a century of tractor-making and features tractors that are regarded with something like affection - Case, Fordson, Massey-Ferguson, Minneapolis-Moline, Versatile - they are all here and many others. Tractors of all shapes, sizes, ages, colors and types - they are here in all their resplendent glory.

**Steak** Mark Schatzker, 2015-10-01 On a quest for the perfect cut of beef, award-winning food and travel writer Mark Schatzker embarks on an odyssey to four continents, travelling thousands of miles across eight countries and working his way through more than 100 lbs of steak prepared according to dozens of techniques. The result is an impassioned, funny and remarkably enlightening study of steak and its discontents as well as its many delights.

**Bangles** Marsha Marie, 2016-08-23 In 1992, when Marsha Marie boarded a plane with her two small children and her second husband, Zain; they had one-way tickets to Pakistan and a plan. Their destination: Zain's birthplace in the remote village of Kalu Kalan. Their reason: to escape the toxic influence of Marsha's abusive ex-husband, David. Their goal: to join Zain's relatives and live free from David's domineering interference. Yet, when Zain unexpectedly decides to return to the States, leaving Marsha and the children behind with his family, all of these plans go up in smoke. Now immersed in an unfamiliar country, Marsha is forced to do what she knows best--adapt and survive. With the help of Zain's family, Marsha assimilates to the local culture and creates a new existence for herself and her children. But more than twenty years later, Marsha can no longer escape her mother's parting advice, Never forget your identity. Yearning to return to America, but knowing that she's now considered a fugitive by the American government, Marsha is forced to make a difficult choice that will irrevocably change the lives of everyone involved. Told with heart and humor, Bangles is the amazing true story of Marsha Marie's incredible journey towards inner strength that teaches us it's never too late to come home.
