**Danny Sullivan**

**Earth Grids** Hugh Newman,2018-10-09 In this beautiful little book, researcher Hugh Newman explores the science and history of Earth Grids, from Ancient Chinese medicine to the invention of longitude and latitude straight through to our current electrical system. Do ancient maps prove that the planet was surveyed 12,000 years ago? Were the poles once in a different position to where they are today? Is there a secret pattern joining the great sites of antiquity? In this revolutionary little book, ancient sites expert Hugh Newman outlines various theories concerning geometry in the distribution of sacred sites on Earth and comes to some startling conclusions. Illustrated throughout with fantastic graphics, this book will change your world.

*Megalithomania* John Michell,2007-04-03 A feast of extraordinary theories and personalities centred around the mysterious standing stones of antiquity. John Michell tells the incredible story of the amazing reactions, ancient and modern, to these prehistoric relics, whether astronomical, legendary, mystical or visionary.

**The Sacred Network** Chris H. Hardy,2011-02-23 How sacred sites amplify the energies of consciousness, the earth, and the universe • Examines the web of geometrical patterns linking sacred sites worldwide, with special focus on the sacred network of ley lines in Paris • Unveils the coming state of shared consciousness for humanity fueled by the sacred network • Reveals how consciousness is a tangible form of energy First marked by the standing stones of our megalithic ancestors, the world's sacred sites are not only places of spiritual energy but also hubs of cosmic energy and earthly energy. Generation upon generation has recognized the power of these sites, with the result that each dominant culture builds their religious structures on the same spots--the Cathedral of Notre Dame in Paris, for example, was constructed over a Temple to Diana that in turn had been built over a stone pillar worshipped by the Gauls. In *The Sacred Network*, Chris Hardy shows how the world's sacred sites coincide with the intersections of energetic waves from the earth's geomagnetic field and how--via their megaliths, temples, and steeples--these sites act as antennae for the energies of the cosmos. Delving deeply in to Paris's sacred network, she also explores the intricate geometrical patterns created by the alignments of churches and monuments, such as pentagrams and Stars of David. Revealing that consciousness is a tangible energy, she explains how the sacred network is fueling an 8,000-year evolutionary cycle initiated by our megalithic ancestors that will soon culminate in a new state of shared consciousness for humanity.

*Ley Lines and Earth Energies* David Cowan,2003 This exploration shows how natural forces affect our behavior, how they can be used to enhance our health and well being, and ultimately, how they bring us closer to penetrating one of the deepest mysteries being explored.

**Geomancy** Hugh Newman,Jewels Rocka,Richard Creightmore,2021-10 Does the Earth have a living energy system? How do you find a spring using a dowsing rod? What is the ancient Chinese art of Feng Shui? Why are dragons associated with ley lines? Were sacred sites once placed on a global grid? Was a sophisticated geomancy practiced long ago? Written by six expert authors and illustrated with rare engravings, woodcuts, original drawings and diagrams, Geomancy is the ultimate guide to earth mysteries, exploring the hidden frontiers of ancient knowledge to uncover the lost history of our living planet.

**A guide to Leylines, Earth Energy lines and Nodes** Rory Duff,

**Megalith** Hugh Newman,2020-09-09 How do you predict eclipses at Stonehenge? Why do the Carnac alignments follow geological fault lines? Why is Avebury precisely one seventh of a circle down from the north pole? Why are so many stone circles egg-shaped or flattened? What is the meaning of the designs in ancient rock art? Why do you have to wait nineteen years to visit the remote site of Callanish? What were the ancients up to? This book details our oldest and grandest buildings, our first temples, our earliest visual art, messages which are still relevant today. With eight authors, and packed with detailed information and exquisite rare illustrations, Megalith is a timeless and valuable sourcebook for anyone interested in prehistory.

**Axis of Heaven** Paul Broadhurst (Mythologist),Gabriele Trso,2016

**Gaia Matrix** Peter William Champoux,1999

Sun, Moon and Earth Robin Heath,2001-04-01 Explores the cycles of the sun and moon and discusses early calendars and the work of ancient astronomers and mathematicians.

Portals Philippa Lewis,2018-01-02 An illustrated exploration of our limitless fascination with doors, gates, and bridges. The word portal comes from the Latin for gate, but it refers to any place of ingress and egress. According to architectural historian Philippa Lewis, a portal is generally an optimistic thing, both literally and metaphorically . . . The word encapsulates the idea of passing through, to a new opportunity, to making progress or moving forward, to entering fresh new worlds. That may be the reason so many people are drawn to the idea of portals--from King Nebuchadnezzar's Ishtar Gate through the walls of Babylon, to mountain passes, the doorway to the Raphael Loggia at the Vatican, pontoons, and drawbridges. Portals also have enlivened fiction and lore--what would Arabian Nights have been without the magical command Open Sesame! or Alice in Wonderland if Alice had not followed the White Rabbit down a rabbit hole? And in many cultures around the world, a rainbow is a portal that stands for peace, tolerance, respect for life and diversity. In this beautifully illustrated book, the seemingly everyday means of ingress and egress become things of beauty and cultural significance.

Ley Lines and Earth Energies - the Rediscovery of a Lost Wisdom Kenneth Parsons,2020-05-29 In my book, I offer some rare insights into the special association that can exist between ourselves, Ley Lines and Earth Energies, along with the Electromagnetic Dimensions and Entities which surround us.Using comparative linguistics and early historical records, I reveal many discoveries of long, lost wisdom concerning man's relationship with the planet he inhabits. To find the truth these days is extremely difficult - the truth about our former way of life that is ... and my revelations about this might truly surprise the reader!

**Giants on Record** Jim Vieira,Hugh Newman,2017-07-14 Originally published: Glastonbury, Somerset, UK: Avalon Rising Publications, 2015.

**The Giants of Stonehenge and Ancient Britain** Hugh Newman,Jim Vieira,2022-10-26 Did giants really exist in the British Isles? Do the legends of them building Stonehenge hold any reality? Why does the establishment deny they ever existed? Hugh Newman and Jim Vieira, best selling authors of *Giants On Record: America's Hidden History, Secrets in the Mounds and the Smithsonian Files* (2015), and stars of History Channel's *Search for the Lost Giants*, investigate these claims and take a deep dive into obscure newspaper accounts, antiquarian diaries, archaeological reports, local history records, newly-translated ancient texts, academic papers, new scientific reports and written evidence from hundreds of sources going back over a 4,000-year period to uncover the truth. Over 250 accounts of the remains of giant human skeletons ranging from 7 feet to 21 feet have been found in the archaeological and historical record, often measured and commented on by famous scientists, scholars and writers at the time. A wealth of folklore from England, Wales, Scotland and Ireland talks about sophisticated cultures of giants with supernatural powers and advanced technology who had control over thunder and lightning, as witnessed when their tombs were disturbed by later generations. They were often high kings and queens who were master geomancers, surveyors, architects and astronomers who ruled from their mountaintop fortresses--whilst others were cannibals with violent tendencies who enjoyed throwing gigantic rocks across the landscape! The authors take a close look at these age-old stories and the remarkable skeletal discoveries to reveal for the first time an important lost chapter of British history. Includes an 8-page color section.

*Ley Lines* Danny Sullivan,2000 An introduction to the phenomenon of the alignment of ancient sites. It examines the discovery of ley lines by Alfred Watkins in the 1920s, exploring all the explanatory theories, before going on to look at developments in research into ley lines.

**Early British Trackways** Alfred Watkins,2005-11-01 These--if ancient-seem to be invariably on (not merely alongside) a ley, and in many cases are at the crossing of two leys, thus appropriating the sighting point to a new use. -from *Churches* Were the significant sites of ancient Britain deliberately aligned along an invisible web of power? Or is it a mere coincidence that so many locations associated with worship and arcane knowledge are situated in unique spatial relationship to one

another? Self-taught photographer and anthropologist Alfred Watkins was the first to discover the ley lines apparently connecting the churches, megaliths, earthen mounds, holy wells, and other places of power in Britain, and he published his results in this 1922 book. Though he offers no extraordinary explanation of their meaning-except, perhaps, that the leys represent ancient trade routes-others have associated ley lines with UFOs, crop circles, dowsing, and other paranormal phenomena. Long out of print, this foundational work is a vital resource for students of the supernatural. British photographer and amateur archaeologist ALFRED WATKINS (1855-1935) was a fellow of the Royal Photographic Society and served as president of the Woolhope Naturalists' Field Club in 1919. He also wrote *The Old Straight Track* (1925) and *The Ley Hunter's Manual* (1927).

*Secrets in the Fields* Freddy Silva,2002 *Secrets in the Fields* is the most thoroughly researched, most comprehensive book on the market about crop circles phenomena. The author takes readers on an exhilarating firsthand field trip into the heart of this mystery. He introduces us to farmers, researchers, scientists, mystics, hoaxers, and debunkers. He tells: How to distinguish a hoax from an authentic crop circle. The role of UFOs/aliens in the creation of crop circles.>br>What crop circles might mean. How a theory of music may account for their creation. This is a book for anyone interested in the unexplained, earth mysteries, UFOs, and esoteric wisdom. It will be a hit with those who love books about the pyramids, 2012 prophecies, and the Gnostic mysteries.

**Sacred Springs** Christina Martin,2006-02 With a county-by-county gazeteer, this beautiful book, illustrated throughout by the author, tells the story of the holy waters of the British Isles through hand-picked examples.

**Ley Lines of the UK and USA** David Cowan,Anne Silk,2014-06-12 Since the Stone Age our ancestors have tapped into the natural energies of the planet, building stone circles, standing stones, pyramids and temples in a highly evolved and brilliantly executed network of energy centers around the world. Thousands of years later, this ancient knowledge was brutally suppressed by the early Catholic church and ignored by science. But it still lingered on, kept by such secret societies as the Knights Templar and the Masons, who designed buildings and whole cities incorporating this esoteric knowledge, hidden in plan view. Here, Cowan brings together his own extensive work with the findings of other researchers, and reveals his discovery that the energy lines emanate from volcanic sources that spew out natural telluric energies in all directions, like the spokes of a wheel! Chapters include: Megalithic Engineering; Burial Grounds across Scotland; Following a Straight Ley Line to its Source; Saint Columba and Iona; The Royal Triangle of Great Britain; The Strange Behavior of Ley Lines; The Dance of the Dragon; Ley Lines in the USA; The Secret Knowledge of the Freemasons; Spirit Paths; The Occult Knowledge of the Nazis; How to Use Diving Rods; The Amazing Power of the Maze; more. Tons of illustrations, all in color!

[A Guide to Leylines, Earth Energy Lines, Nodes & Large Vortexes](#) Rory Duff,2021-07-15 This book contains the 1st ever classification of Earth energies, Earth energy grids, Nodes and large Vortexes along with their descriptions. In addition to

that it contains maps of Energy lines around the city of Bath in the UK and a wide area around the Avebury stone circle. It also contains large scale World maps showing the locations of the six pairs Emperor Dragons as well as a map of the major type 4 alignments that cross the UK. The guide also contains details about dowsing as well as a scientific hypothesis for how the different energy lines and the energy grids are thought to come about and how & why they differ. Whether you are just interested in this subject or someone who is looking to improve their dowsing, this book will greatly advance you further in both areas. Rory Duff has been studying these energies for over 30 years and runs seminars & competency based training courses in these and other related subjects across Europe & America..
