The Labyrinth Index Charles Stross, 2018-10-30 Britain is under New Management. The disbanding of the Laundry - the British espionage agency that deals with supernatural threats, has culminated in the unthinkable - an elder god in residence in 10 Downing Street. But in true 'the enemy of my enemy' fashion, Mhari Murphy finds herself working with His Excellency Nyarlathotep on foreign policy - there are worse things, it seems, than an elder god in power, and they lie in deepest, darkest America. A thousand-mile-wide storm system has blanketed the midwest, and the president is nowhere to be found - Mhari must lead a task force of disgraced Laundry personnel into the storm front to discover the truth. But working for an elder god is never easy, and as the stakes rise, Mhari will soon question exactly where her loyalties really lie.

The Cambridge Handbook of Applied Perception Research Robert R. Hoffman, Peter A. Hancock, Mark W. Scerbo, Raja Parasuraman, James L. Szalma, 2015-01-26. The Cambridge Handbook of Applied Perception Research covers core areas of research in perception with an emphasis on its application to real-world environments. Topics include multisensory processing of information, time perception, sustained attention, and signal detection, as well as pedagogical issues surrounding the training of applied perception researchers. In addition to familiar topics, such as perceptual learning, the Handbook focuses on emerging areas of importance, such as human-robot coordination, haptic interfaces, and issues facing societies in the twenty-first century (such as terrorism and threat detection, medical errors, and the broader implications of automation). Organized into sections representing major areas of theoretical and practical importance for the application of perception psychology to human performance and the design and operation of human-technology interdependence, it also addresses the challenges to basic research, including the problem of quantifying information, defining cognitive resources, and theoretical advances in the nature of attention and perceptual processes.

Basic Marketing William D. Perreault, Jr., E. Jerome McCarthy, Joseph P. Cannon, 2006-10. Basic Marketing 16e builds on the foundation pillars of previous editions – the four Ps framework, managerial orientation, and strategy planning focus. 16e builds upon its pioneering beginnings that introduced the “four Ps” to the introductory marketing course. The unifying focus of Basic Marketing has always been on how to make the marketing decisions that a manager must make in deciding what

customers to focus on and how best to meet their needs. Over many editions there has been constant change in marketing management and the marketing environment. Some of the changes have been dramatic, and others have been subtle. As a result, the authors have made ongoing changes to the text to reflect marketing's best practices and ideas. Throughout all of these changes, Basic Marketing and the supporting materials that accompany it have been more widely used than any other teaching materials for introductory marketing. Consistent with our belief in continuous quality improvement, this edition has been critically revised, updated, and rewritten to reflect new concepts, new examples, and recent "best practices." This edition extends the strategy planning approach, integrating concepts tightly with the marketing strategy planning model.

The Culture of "the Culture" Joseph S. Norman, 2021 The Culture of 'The Culture' is the first critical monograph focussed solely on Iain M. Banks's 'Culture' series, exploring his political, philosophical and literary thought, and arguing that the Culture is both a harmonious, socialist alternative form of globalisation and a critique of our neo-liberal present.

Rereading America Gary Colombo, 2007 Intended as a reader for writing and critical thinking courses, this volume presents a collection of writings promoting cultural diversity, encouraging readers to grapple with the real differences in perspectives that arise in our complex society.

Huxley's Brave New World: Essays David Garrett Izzo, Kim Kirkpatrick, 2014-07-15 Aldous Huxley's prophetic novel of ideas warned of a terrible future then 600 years away. Though Brave New World was published less than a century ago in 1932, many elements of the novel's dystopic future now seem an eerily familiar part of life in the 21st century. These essays analyze the influence of Brave New World as a literary and philosophical document and describe how Huxley forecast the problems of late capitalism. Topics include the anti-utopian ideals represented by the rigid caste system depicted, the novel's influence on the philosophy of culture industry philosophers Max Horkheimer and Theodor Adorno, the Nietzschean birth of tragedy in the novel's penultimate scene, and the relationship of the novel to other dystopian works.

The Craft of Scientific Presentations Michael Alley, 2006-05-17 This timely and hugely practical work provides a score of examples from contemporary and historical scientific presentations to show clearly what makes an oral presentation effective. It considers presentations made to persuade an audience to adopt some course of action (such as funding a proposal) as well as presentations made to communicate information, and it considers these from four perspectives: speech, structure, visual aids, and delivery. It also discusses computer-based projections and slide shows as well as overhead projections. In particular, it looks at ways of organizing graphics and text in projected images and of using layout and design to present the information efficiently and effectively.

Matter Iain M. Banks, 2008-09-04 The novels of Iain M. Banks have forever changed the face of modern science fiction. His Culture books combine breathtaking imagination with exceptional storytelling, and have secured his reputation as one of the most extraordinary and influential writers in the genre. 'Banks is a phenomenon' William Gibson The intricate structure of a Shellworld - an artificial planet of spheres-within-spheres - is matched only by the machinations of its inhabitants. On the eighth sphere of Sursamen, a man witnesses the murder of his father and flees, searching for the one - maybe two - people who could clear his name. For his brother, this means a life lived under constant threat of treachery, while for their sister, Djan Seriy Anaplian, it means returning to a place she'd thought abandoned forever. Anaplian is not who she once was. She has become an agent of the Culture's Special Circumstances section, charged with high-level interference in civilisations throughout the greater galaxy. Concealing her new identity - and her particular set of abilities - might be a dangerous strategy. In the world to which she returns, nothing is quite as it seems; and determining the appropriate level of interference in someone else's war is never a simple matter. Praise for the Culture series: 'Epic in scope, ambitious in its

ideas and absorbing in its execution' Independent on Sunday 'Banks has created one of the most enduring and endearing visions of the future' Guardian 'Jam-packed with extraordinary invention' Scotsman 'Compulsive reading' Sunday Telegraph The Culture series: Consider Phlebas The Player of Games Use of Weapons Excession Inversions Look to Windward Matter Surface Detail The Hydrogen Sonata The State of the Art Other books by Iain M. Banks: Against a Dark Background Feersum Endjinn The Algebraist Also now available: The Culture: The Drawings - an extraordinary collection of original illustrations faithfully reproduced from sketchbooks Banks kept in the 1970s and 80s, depicting the ships, habitats, geography, weapons and language of Banks' Culture series of novels in incredible detail.

Quantum of Nightmares Charles Stross, 2022-01-13 It's a brave new Britain under the New Management. The Prime Minister is an eldritch god of unimaginable power. Crime is plummeting as almost every offense is punishable by death. And everywhere you look, there are people with strange powers, some of which they can control, and some, not so much. Hyperorganised and formidable, Eve Starkey defeated her boss, the louche magical adept and billionaire Rupert de Montfort Bigge, in a supernatural duel to the death. Now she's in charge of the Bigge Corporation, just in time to discover the lethal trap Rupert set for her long ago . . . Wendy Deere is investigating unauthorized supernatural shenanigans. She swore to herself she wouldn't again get entangled with Eve Starkey's bohemian brother Imp and his crew of transhuman misfits. Yeah, right. Mary Macandless has powers of her own. Right now she's pretending to be a nanny in order to kidnap the children of a pair of famous, Government-authorized adepts. These children have powers of their own, and Mary Macandless is in way over her head. All of these stories will come together, with world-bending results... 'For all of Stross's genuine ability to spook and dismay, The Laundry Files are some of the most tremendously humane books I've ever read' Tamsyn Muir, author of Gideon the Ninth

Representing Autism Stuart Murray, 2008-01-01 From concerns about an 'autism epidemic' to the MMR vaccine crisis, autism is a source of peculiar fascination in the contemporary media. Author Stuart Murray, himself the parent of an autistic

child, contends that for all the coverage, autism rarely emerges from the various images we produce of it as a comprehensible way of being in the world—instead occupying a succession of narrative spaces as a source of fascination and wonder. A refreshing analysis and evaluation of autism within contemporary society and culture, *Representing Autism* establishes the autistic presence as a way by which we might more fully articulate our understanding of those with the condition, and what it means to be a human. “This is an outstanding volume of empathetic scholarship. . . . *Representing Autism* is a truly significant piece of cultural criticism about one of the defining conditions of our time.”—Mark Osteen, Loyola College
