Literacy and Learning in the Content Areas Sharon Kane, 2017-07-05 The 3rd Edition of *Literacy & Learning in the Content Areas* helps readers build the knowledge, motivation, tools, and confidence they need as they integrate literacy into their middle and high school content area classrooms. Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms. Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such techniques as mapping/webbing, anticipation guides, booktalks, class websites, and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content, communities, and websites into their classrooms.

Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks.

Two Truths and a Lie: It's Alive! Ammi-Joan Paquette, Laurie Ann Thompson, 2017-06-27 "Considering the fresh attention being paid to teaching a skeptical approach to information evaluation, this series opener couldn't be better timed. A brief but savvy guide to responsible research methods adds further luster to this crowd pleaser." —ALA Booklist (starred review) Two

Truths and a Lie is the first book in a fascinating new series that presents some of the most crazy-but-true stories about the living world as well as a handful of stories that are too crazy to be true—and asks readers to separate facts from fakes! Did you know that there is a fungus that can control the mind of an ant and make it do its bidding? Would you believe there is such a thing as a corpse flower—a ten-foot-tall plant with a blossom that smells like a zombie? How about a species of octopus that doesn't live in water but rather lurks in trees in the Pacific Northwest? Every story in this book is strange and astounding. But not all of them are real. Just like the old game in this book's title, two out of every three stories are completely true and one is an outright lie. Can you guess which? It's not going to be easy. Some false stories are based on truth, and some of the true stories are just plain unbelievable. And they're all accompanied by dozens of photos, maps, and illustrations. Amaze yourself and trick your friends as you sort out the fakes from the facts! Acclaimed authors Ammi-Joan Paquette and Laurie Ann Thompson have teamed up to create a series of sneaky stories about the natural world designed to amaze, disgust, and occasionally bamboozle you.

The narrative begins with ``the birth of the blues'' and proceeds to discuss the major (and mention the minor) performers and to identify the significant styles. These include Fifties rockabilly, folk/protest, the British Invasion, acid rock, punk/New Wave, and Eighties revivalism. Using a lively, anecdotal approach and pertinent quotes, the author examines the appropriate political, economic, technological, or psychological context of each topic, e.g., the relationship between Dylan's music and JFK's New Frontier. A primary focus throughout is on the contributions of blacks and the role of racism. Paul Feehan, Univ. of Miami Lib., Coral Gables, Fla. - Library Journal.
