

Reconstructing Spain

L. Vidler

Reconstructing Spain Dacia Viejo-Rose, 2014-03 This book explores the role of cultural heritage in post-conflict reconstruction, whether as a motor for the prolongation of violence or as a resource for building reconciliation. The research was driven by two main goals: first, to understand the post-conflict reconstruction process in terms of cultural heritage, and second, to identify how this process evolves in the medium term and the impact it has on society. The Spanish Civil War (1936-39) and its subsequent phases of reconstruction provides the primary material for this exploration. In pursuit of the first goal, the book centres on the material practices and rhetorical strategies developed around cultural heritage in post-civil war Spain and the victorious Franco regime's reconstruction. The analysis seeks to capture a discursively complex set of practices that made up the reconstruction and in which a variety of Spanish heritage sites were claimed, rebuilt or restored and represented in various ways as signs of historical narratives, political legitimacy and group identity. The reconstruction of the town of Gernika is a particularly emblematic instance of destruction and a significant symbol within the Basque regions of Spain as well as internationally. By examining Gernika it is possible to identify some of the trends common to the reconstruction as a whole along with those aspects that pertain to its singular symbolic resonance. In order to achieve the second goal, the processes of selection, value change and exclusionary dynamics of reconstruction and the responses it elicits are examined. Exploring the possible impact of post-civil war reconstruction in the medium term is conducted in two time frames: the period of political transition that followed General Franco's death in 1975; and the period 2004-2008, when Rodriguez Zapatero's government undertook initiatives to 'recover the historic memory' of the war and dictatorship. Finally, the observations made of the Spanish reconstruction are analysed in terms of how they might reveal general trends in post-conflict reconstruction processes in relation to cultural heritage. These insights are pertinent to the situations in Cambodia, Bosnia and Herzegovina, Afghanistan and Iraq.

Spain and the Reconstruction of Western Europe, 1945-57 F. Guirao, 1998-09-14 Based on a wide range of archival sources, this book analyses the response of the most peripheral country in Western Europe, Franco's Spain, to the challenges of increasing economic interdependence from the end of World War II to the establishment of the EEC, 1945-57. In so doing, the author sheds new light on the fundamental question of the survival of the Franco regime and stimulates further discussion on the external factors responsible for Spain's pattern of economic growth after 1945.

Decades of Reconstruction Ute Planert, James Retallack, 2017-06-13 International scholars review decades of postwar reconstruction in international comparison from the eighteenth to the twentieth century, demonstrating how foreign domestic policy cannot be separated.

The Mexican Mission Ryan Dominic Crewe, 2019-06-27 Offers a social history of the Mexican mission enterprise, emphasizing the centrality of indigenous politics, economics, and demographic catastrophe.

Reconstructing Paleodiets: Challenges and Advances Eduardo Jiménez-Hidalgo, Ferran Estebanaranz-Sanchez, Larisa R.G. DeSantis, Maciej Tomasz Krajcarz, Carlo Meloro, 2023-09-13 Reconstructions of diet provide valuable insights into the ecology and evolutionary history of animals and humans in the fossil record, and the history of relationships between animals and humans. Reconstruction of past diets allows tracking numerous ecological and behavioural aspects through time and across diverse geographic areas, such as, but not limited to: trophic position, niche sharing and niche partitioning, past vegetation, migration patterns, ontogenetic and individual diet choices, and adaptations to changing environment. It also is a useful tool to track climatic change. More broadly, these insights are key to reconstructing and understanding the structure, composition, and function of past ecosystems. Multiple approaches have been proposed to infer paleodiets, including the integration of multiple proxy approaches.

Twentieth-Century Spain Julián Casanova, Carlos Gil Andrés, 2014-07-03 A much-needed new overview of twentieth-century Spanish social and political history which sets developments within a European context.

Women Political Prisoners after the Spanish Civil War Ruth Fisher, 2020-11-24 At the end of the Spanish Civil War the Nationalist government instigated mass repression against anyone suspected of loyalty to the defeated Republican side. Around 200,000 people were imprisoned for political crimes in the weeks and months following 1st April 1939, including thousands of women who were charged with offences ranging from directing the home front to supporting their loved ones engaged in combat. Many women wrote and published texts about their experiences, seeking to make their voices heard and to counteract the dehumanising master narrative of the right-wing victors that had criminalised their existence. The memoirs of Communist women, such as Tomasa Cuevas and Juana Doña, have heavily influenced our understanding of life in prison for women under franquismo, while texts by non-Communist women have largely been ignored. This monograph offers a comparative study of the life writing of female political prisoners in Spain, focusing on six texts in particular: the two volumes of *Cárcel de mujeres* by Tomasa Cuevas; *Desde la noche y la niebla* by Juana Doña; *Réquiem por la libertad* by Ángeles García-Madrid; *Abajo las dictaduras* by Josefa Garcia Segret; and *Aquello sucedió así* by Ángeles Malonda. All the texts share common themes, such as describing the hunger and repression that all political prisoners suffered. However, the ideologically-driven narratives of Communist women often foreground representations of resistance at the expense of exploring the emotional and intellectual struggle for survival that many women political prisoners faced in the aftermath of

the Spanish Civil War. This study nuances our understanding of imprisoned women as individuals and as a collective, analysing how women political prisoners sought recognition and justice in the face of a vindictive dictatorship. It also explores the women's response to the spirit of *convivencia* during the transition to democracy, which once again threatened to silence them.

Performance Reconstruction and Spanish Golden Age Drama L. Vidler, 2016-11-09 Spanish Golden Age drama has resurfaced in recent years, however scholarly analysis has not kept pace with its popularity. This book problematizes and analyzes the approaches to staging reconstruction taken over the past few decades, including historical, semiotic, anthropological, cultural, structural, cognitive and phenomenological methods.

Contemporary Spanish Cinema Barry Jordan, Rikki Morgan-Tamosunas, 1998-07-15 Contemporary Spanish Cinema offers an essential analysis of the main trends and issues in Spanish film since the death of Franco in 1975. While taking account of cinema during the Franco dictatorship, the book focuses principally on developments in the last two decades. Acknowledging the sheer breadth and diversity of Spanish film production since the ending of the regime and the transition to democracy, this study includes chapters on Spanish film's obsessive concern with the past on popular genre film (including the comedy and the thriller), on representations of gender and sexuality and the work of women film professionals, both behind and in front of the camera, as well as on film produced in Spain's autonomous communities, particularly in Catalonia and the Basque Country. This book offers a unique and up-to-date focus on a wide range of materials, including work on such established directors as Carlos Saura, Víctor Erice, Pedro Almodóvar, Pilar Miró, Bigas Luna and Josefina Molina as well as exciting new talents such as Julio Medem, Juanma Bajo Ulloa, Alex de la Iglesia, Icíar Bollaín, Isabel Coixet and Marta Ballester-Coll.

After Civil War Bill Kissane, 2014-10-15 Civil war inevitably causes shifts in state boundaries, demographics, systems of rule, and the bases of legitimate authority—many of the markers of national identity. Yet a shared sense of nationhood is as important to political reconciliation as the reconstruction of state institutions and economic security. *After Civil War* compares reconstruction projects in Bosnia, Cyprus, Finland, Greece, Kosovo, Northern Ireland, the Republic of Ireland, Spain, and Turkey in order to explore how former combatants and their supporters learn to coexist as one nation in the aftermath of ethnopolitical or ideological violence. *After Civil War* synthesizes research on civil wars, reconstruction, and nationalism to show how national identity is reconstructed over time in different cultural and socioeconomic contexts, in strong nation-states as well as those with a high level of international intervention. Chapters written by anthropologists, historians, political scientists, and sociologists examine the relationships between reconstruction and reconciliation, the development of new party systems after war, and how globalization affects the processes of peacebuilding. *After Civil War* thus provides a comprehensive, comparative perspective to a wide span of recent political history, showing postconflict

articulations of national identity can emerge in the long run within conducive institutional contexts. Contributors: Risto Alapuro, Vesna Bojicic-Dzelilovic, Chares Demetriou, James Hughes, Joost Jongerden, Bill Kissane, Denisa Kostovicova, Michael Richards, Ruth Seifert, Riki van Boeschoten.

Blood Cinema Marsha Kinder, 1993-12-06 This is the most complete, in-depth, sophisticated study of Spanish cinema available in any language.—Marvin D'Lugo, author of *The Films of Carlos Saura*

The Preservation of Art and Culture in Times of War Claire Oakes Finkelstein, Derek Gillman, Frederik Rosén, 2022 Cultural heritage has become increasingly conflict prone. Today, systematic exploitation, manipulation, attacks, and destruction of cultural heritage by states and non-state actors form part of most violent conflicts across the world. Such acts are often intentional and based on well-planned strategies for inflicting harm on groups of people and communities. We have therefore progressed from seeing conflict-related destruction of cultural heritage just as a cultural tragedy to understanding it also as a security issue. It is a shift from protecting cultural property from the harms of war for the sake of cultural property itself to viewing it as intricately connected to the broader peace and security agenda. Concerns about cultural heritage have migrated beyond the cultural sphere to sectors dealing with peace and security and dovetails with issue such the protection of civilians, the financing of terrorism, societal resilience, post-conflict reconciliation, hybrid warfare, and the geopolitics of territorial conflicts. This volume seeks to deepen our understanding of this evolving nexus between cultural heritage and security in the twenty-first century. It offers a collection of chapters that aims to open new horizons for thinking about the relationship between cultural heritage, security, and international law. Coming from a variety of disciplines and perspectives, the chapters examine a complicated set of relationships between, on the one hand, deliberate violence to cultural heritage in times of conflict, and, on the other, basic societal values, legal principles, protection, and security concerns--

Historical Dictionary of the Spanish Civil War Francisco J. Romero Salvadó, 2013-03-14 The tragedy that devastated Spain for 33 months from July 1936 to April 1939, was, first and foremost, a brutal fratricidal conflict, the product of the fatal clash between diametrically opposed views of Spain and an attempt to settle crucial issues which had divided Spaniards for generations: agrarian reform, recognition of the identity of the historical regions (Catalonia, the Basque Country), and the roles of the Catholic Church and the armed forces in a modern state. Being a war between Spaniards, it was particularly brutal, but it was also part of the broader move toward war in Europe and thus sucked in many “volunteers” from abroad. And it left a deep imprint since General Francisco Franco remained at the helm of the country until his death in 1975. The Historical Dictionary of the Spanish Civil war covers the history of the war, first through a long chronology, which highlights the major steps from the incubation to the conclusion. The overall situation is summed up in the introduction. Then the dictionary section fleshes it out, with over 600 entries on persons, places, events, institutions, battles, and campaigns. More

reading can be found in an extensive bibliography. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Spanish Civil War.

A New Politics of Heritage Reconstruction in Afghanistan Constance Wyndham, 2023-12-22 *A New Politics of Heritage Reconstruction in Afghanistan* investigates the politics of cultural heritage preservation in Afghanistan between 2008 and 2015. Based on several periods of ethnographic fieldwork and the author's direct employment on several internationally-sponsored heritage projects, this book studies the new and complex intersections between cultural heritage and politics in Afghanistan. Wyndham argues that a particular configuration of heritage and politics has emerged after the destruction of the Buddhas at Bamyān and demonstrates how the characteristics of this 'post-Bamyān' heritage paradigm are revealed through a number of case studies of internationally sponsored heritage work. These case studies reveal how politics and heritage are currently configured across a diverse range of governments, state and non-state actors, NGOs, individuals and forms of expertise—and why such intersections matter. The book responds to a call from across the discipline of Heritage Studies to look more closely at the relationships between heritage, power and politics. *A New Politics of Heritage Reconstruction in Afghanistan* provides a fascinating case study on the intersection of heritage and politics that will be of interest to students and scholars of heritage, as well as to professionals working on heritage preservation - both within and outside of government.

Public Humanities and the Spanish Civil War Alison Ribeiro de Menezes, Antonio Cazorla-Sánchez, Adrian Shubert, 2018-12-12 This interdisciplinary collection of essays examines contemporary public history's engagement with the Spanish Civil War. The chapters discuss the history and mission of the main institutional archives of the war, contemporary and forensic archaeology of the conflict, burial sites, the affordances of digital culture in the sphere of war memory, the teaching of the conflict in Spanish school curricula, and the place of war memory within human rights initiatives. Adopting a strongly comparative focus, the authors argue for greater public visibility and more nuanced discussion of the Civil War's legacy, positing a virtual museum as one means to foster dialogue.

A Millennial View of Spain's Development Leandro Prados de la Escosura,

Ashes and Granite Olivia Muñoz-Rojas, 2011 Examines the wartime destruction and post-war rebuilding of three prominent sites in Madrid, Bilbao and Barcelona in the Spanish Civil War and its aftermath. This title reveals aspects of the Spanish Civil War and the evolution of the Franco regime from an original and fruitful angle.

Reconstructing Historic Subsistence with an Example from Sixteenth-century Spanish Florida Elizabeth Jean Reitz, C. Margaret Scarry, 1985

Waiting at the Shore Paul Quintanilla, 2014-01-01 *Waiting at the Shore* chronicles the extraordinary life of the Spanish artist Luis Quintanilla, championed by Ernest Hemingway, John Dos Passos, Elliot Paul, and many other American and

European writers and artists. In 1912, at the age of 18, he ran off to Montmartre where, under the influence of his fellow countryman Juan Gris, he began his artistic career as a Cubist. Returning to Madrid before the war he befriended prominent Spaniards, including Juan Negrin, the Premier during the Spanish Civil War. In April 1931 he and Negrin participated in the peaceful revolution which ousted the monarchy and installed the Second Spanish Republic. When civil war broke out Quintanilla helped lead troops on Madrid's Montana Barracks, which saved the capital for the Republic. Because great painters, as Hemingway put it, are scarcer than good soldiers, the Spanish government [Negrin] ordered Quintanilla out of the army after the fascists were stopped outside Madrid. The artist completed 140 drawings of the various fronts of the war which were exhibited at New York's Museum of Modern Art, with a catalogue by Hemingway. After the Republic lost the war Quintanilla was forced into an exile which lasted several decades. Living in New York and in Paris he strove to perfect his art, shunning the modernist vogues of the time. Although a celebrity when he first arrived in the United States he eventually fell into obscurity. This volume, which is heavily illustrated, brings him out of the shadows of neglect, and provides the compelling story of an artist who led not just an extraordinary life but left a legacy of paintings and drawings which, in both their skill and great imaginative variety, should be known to all art lovers.

The Age of Reconstruction Don H. Doyle, 2024-06-11 John Wilkes Booth fired his fatal shot on the evening of April 14, 1865, and as the news reached nearly every corner of the globe, President Abraham Lincoln lay dying. Pervasive sympathy for America-and the martyred Lincoln-provoked restless agitation for democratic reform on both sides of the Atlantic. While most readers are familiar with Reconstruction as a deeply contested domestic struggle, *Viva Lincoln: The Legacy of the Civil War and the New Birth of Freedom Abroad* by historian Don H. Doyle explains how the Union victory helped drive European imperialism from the Americas, bring slavery to an end in Latin America, and spark a wave of democratic reforms in Europe. The 1860s proved to be a crucial decade in the history of democracy. While Reconstruction reforms were implemented to establish the American South on firm republican principles; internationally, a contagious flurry of democratic reforms and revolutions in Britain, Spain, France, and Italy made democracy the wave of the future. However, by the end of the nineteenth century, Doyle argues, the United States had forsaken the main achievements of Reconstruction as new theorists and politicians reconciled democratic principles and white supremacy in the new Jim Crow era. The United States, once a model of democratic reform, became a model for mass segregation, racialized disenfranchisement, and immigration restriction. Grounded in extensive diplomatic correspondence, US and foreign legislative debates, international newspapers, and hundreds of speeches, memoirs, biographies, contemporary books, and pamphlets, *Viva Lincoln* will be the first general-interest global history of Reconstruction from Lincoln's assassination to Jim Crow--
