The Symphonic Repertoire, Volume IV A. Peter Brown,2024-03-29 Central to the repertoire of Western art music since the 18th century, the symphony has come to be regarded as one of the ultimate compositional challenges. Surprisingly, heretofore there has been no truly extensive, broad-based treatment of the genre, and the best of the existing studies are now several decades old. In this five-volume series, A. Peter Brown explores the symphony from its 18th-century beginnings to the end of the 20th century. Synthesizing the enormous scholarly literature, Brown presents up-to-date overviews of the status of research, discusses any important former or remaining problems of attribution, illuminates the style of specific works and their contexts, and samples early writings on their reception. *The Symphonic Repertoire* provides an unmatched compendium of knowledge for the student, teacher, performer, and sophisticated amateur. The series is being launched with two volumes on the Viennese symphony. Volume IV *The Second Golden Age of the Viennese Symphony* Brahms, Bruckner, Dvorák, Mahler, and Selected Contemporaries Although during the mid-19th century the geographic center of the symphony in the Germanic territories moved west and north from Vienna to Leipzig, during the last third of the century it returned to the old Austrian lands with the works of Brahms, Bruckner, Dvorák, and Mahler. After nearly a half century in hibernation, the sleeping Viennese giant awoke to what some viewed as a reincarnation of Beethoven with the first hearing of Brahms's *Symphony No. 1*, which was premiered at Vienna in December 1876. Even though Bruckner had composed some gigantic symphonies prior to Brahms's first contribution, their full impact was not felt until the composer's complete texts became available after World War II. Although Dvorák was often viewed as a nationalist composer, in his symphonic writing his

primary influences were Beethoven, Schubert, and Brahms. For both Bruckner and Mahler, the symphony constituted the heart of their output; for Brahms and Dvorák, it occupied a less central place. Yet for all of them, the key figure of the past remained Beethoven. The symphonies of these four composers, together with the works of Goldmark, Zemlinsky, Schoenberg, Berg, Smetana, Fibich, Janáček, and others are treated in Volume IV, *The Second Golden Age of the Viennese Symphony*, covering the period from roughly 1860 to 1930.

In Harmony Dr. Lisa Redpath, 2022-06-01 In *Harmony: The Complementary Musical Tales of the Brockton Symphony Orchestra, Sharon Civic Orchestra, and Sharon Community Chamber Orchestra* is a stirring, historical account of these three Massachusetts ensembles. Each chapter documents the orchestras' operations ranging from their founders to the conductors, repertoire, players, soloists, volunteers, fundraisers, behind-the-scenes realities, and special features. While details of each organization are presented in depth, a seasoning of interesting, humorous, and at times tragic human-interest stories make these tales come alive. Musicians, audience members, supporters, and readers with a passion for history will find connections to the events told here. Welcome to the inside world of these venerable ensembles which take their places in the history of orchestras with pride. *In Harmony* is the most extensive and intriguing exploration into community orchestras in the literature. Musical portraits are enlivened by real-life adventure stories such as survival by WWII refugees, the guarding of Stradivari violins, performing during power failures, and the dodging of puddles caused by leaking concert hall ceilings. Most notable are the contributions made by core players whose passion for orchestral music-making inspires them to share their talent, time, and commitment with the community, often as part of their life's work. Over time, thousands of audience members have enjoyed their concerts, scores of youth musicians have been awarded performance opportunities and scholarships, and players have felt great satisfaction in their calling to perform. Significant details illuminate the history of the Brockton Symphony Orchestra dating back to 1925 and the central roles that women played in the establishment of the Sharon Civic Orchestra and Sharon Community Chamber Orchestra. The orchestras have been led by conductors from both the local and national stage. Famous performers such as Charles Castleman, Midori, and Gil Shaham were guest soloists with the Brockton Symphony during the early days of their careers. The overall cavalcade of esteemed stars included Karl Ulrich Schnabel, Leonard Rose, Samuel Mayes, Boston Symphony Orchestra members and many others! The conductors, soloists, volunteers, and most importantly, the players, have devoted their lives to the making of symphonic music for all to enjoy. Their tales are masterpieces.

Adele Marion Fielde Leonard Warren,2004-01-14 Adele Marion Fielde, born in 1839, was a teacher, an evangelist, a social activist, scientist, lexicographer, writer and lecturer. As an American missionary in China, she became a local teacher and evangelist, struggling to reconcile her Baptist upbringing with her restless intellect. As an energetic social activist, she was a major figure in the suffragist movement, the abolition of the slave trade and the founding of two hospitals. As a scientist she conducted seminal research which is still discussed and studied today. This book provides an in-depth biographical study of the life of this remarkable woman, exploring her impact on her contemporary society, and her abiding influence on the scientific and academic communities to the present day. The author examines the social and religious constraints on Fielde's life and work and discusses her efforts to transcend these through the construction of a personal system of belief which emphasized the importance of helping others. He demonstrates how, as a woman of immense energy and intellectual ability, she was able to influence the scientific and political communities despite their prevailing negative attitude towards women. Adele Marion Fielde will be of vital interest to scholars concerned with the study of gender and the history of science.

From Spirituals to Symphonies Helen Walker-Hill,2007 Exploding the assumption that black women's only important musical contributions have been in folk, jazz, and pop Helen Walker-Hill's unique study provides a carefully researched examination of the history and scope of musical composition by African American women composers from the nineteenth and twentieth centuries. Focusing on the effect of race, gender, and class, *From Spirituals to Symphonies* notes the important role played by individual personalities and circumstances in shaping this underappreciated category of American art. The study also provides in-depth exploration of the backgrounds, experiences, and musical compositions of eight African

American women including Margaret Bonds, Undine Smith Moore, and Julia Perry, who combined the techniques of Western art music with their own cultural traditions and individual gifts. Despite having gained national and international recognition during their lifetimes, the contributions of many of these women are today forgotten.
