Higher education Great Britain: Department for Business, Innovation and Skills, 2011-06-28
This White Paper sets out the

government's policies for the reform of higher education. The reforms seek to tackle three challenges (i) Putting higher education on a sustainable footing; (ii) Seeking to deliver a better student experience - that is, improvements in teaching, assessment, feedback and preparing the student for the world of work; (iii) Pushing for higher education institutions to take more responsibility for increasing social mobility. The Paper is divided into six chapters, with an annex. Chapter 1: Sustainable and fair funding; Chapter 2: Well-informed students driving teaching excellence; Chapter 3: A better student experience and better-qualified graduates; Chapter 4: A diverse and responsive sector; Chapter 5: Improved social mobility through fairer access; Chapter 6: A new, fit-for-purpose regulatory framework. By shifting public spending away from teaching grants and towards repayable tuition loans, the government believes higher education will receive the funding it needs whilst making savings on public expenditure. The reforms aim to deliver a more responsive higher education sector in which funding follows the decisions of learners and successful institutions are freed to thrive. Also, creating an environment in which there is a new focus on the student experience and the quality of teaching and in which further education colleges and other alternative providers are encouraged to offer a diverse range of higher education provision. The Government, through the Office for Fair Access (OFFA), will be introducing a National Scholarship Programme and will also increase maintenance grants and loans for nearly all students. New Technology Innovation Centres will also be rolled out followed by publication of an innovation and research strategy, exploring the roles of knowledge creation, business investment, skills and training.
