Hundreds of filled-in sample forms show specific content and wording. Icons highlight tips and timesavers, critical case law and legal safeguards, and advice for special situations. Appendices include NANDA taxonomy, JCAHO documentation standards, and documenting outcomes and interventions for key nursing diagnoses.

OECD Health Policy Studies A Good Life in Old Age? Monitoring and Improving Quality in Long-term Care

OECD, European Union, 2013-06-17 This book offers evidence and examples of useful experiences to help policy makers, providers and experts measure and improve the quality of long-term care services.

Nursing Informatics 2016 W. Sermeus, P.M. Procter, P. Weber, 2016-07-21 As the importance of electronic and digital

devices in the provision of healthcare increases, so does the need for interdisciplinary collaboration to make the most of the new technical possibilities which have become available. This book presents the proceedings of the 13th International Conference on Nursing Informatics, held in Geneva, Switzerland, in June 2016. This biennial international conference

provides one of the most important opportunities for healthcare professionals from around the world to gather and exchange expertise in the research and practice of both basic and applied nursing informatics. The theme of this 13th conference is eHealth for All: Every Level Collaboration – From Project to Realization. The book includes all full papers, as well as workshops, panels and poster summaries from the conference. Subjects covered include a wide range of topics, from robotic assistance in managing medication to intelligent wardrobes, and from low-cost wearables for fatigue and back stress management to big data analytics for optimizing work processes, and the book will be of interest to all those working in the design and provision of healthcare today.

**The Nurse Practitioner in Long-term Care** Barbara S. White, Deborah Truax, 2007 A comprehensive reference, *The Nurse Practitioner in Long-Term Care* covers geriatric care provided by the nurse practitioner in the skilled nursing facility (SNF). It includes an introduction to nursing homes, medication management, practical health promotion and disease prevention, and management of common clinical conditions specific to the skilled and long-term care nursing home settings. It also includes topics pertinent to everyday practice such as end-of-life care, pain control, and legal and regulatory issues. This text is useful in graduate programs for nurse practitioners and clinical nurse specialists, as well as for physician's assistant (PA) students. It provides practical guidelines and is an excellent resource book for nurse practitioners and PAs new to nursing home practice or for seasoned professionals.

Improving the Quality of Long-Term Care Institute of Medicine, Division of Health Care Services, Committee on Improving Quality in Long-Term Care, 2001-02-27 Among the issues confronting America is long-term care for frail, older persons and others with chronic conditions and functional limitations that limit their ability to care for themselves. *Improving the Quality of Long-Term Care* takes a comprehensive look at the quality of care and quality of life in long-term care, including nursing homes, home health agencies, residential care facilities, family members and a variety of others. This book describes the current state of long-term care, identifying problem areas and offering recommendations for federal and state policymakers. Who uses long-term care? How have the characteristics of this population changed over time? What paths do people follow in long term care? The committee provides the latest information on these and other key questions. This book explores strengths and limitations of available data and research literature especially for settings other than nursing homes, on methods to measure, oversee, and improve the quality of long-term care. The committee makes recommendations on setting and enforcing standards of care, strengthening the caregiving workforce, reimbursement issues, and expanding the knowledge base to guide organizational and individual caregivers in improving the quality of care.

**Improving the Quality of Care in Nursing Homes** Institute of Medicine, Committee on Nursing Home Regulation, 1986-02-01 As more people live longer, the need for quality long-term care for the elderly will increase dramatically. This volume examines the current system of nursing home regulations, and proposes an overhaul to better

provide for those confined to such facilities. It determines the need for regulations, and concludes that the present regulatory system is inadequate, stating that what is needed is not more regulation, but better regulation. This long-anticipated study provides a wealth of useful background information, in-depth study, and discussion for nursing home administrators, students, and teachers in the health care field; professionals involved in caring for the elderly; and geriatric specialists.

**Nursing Staff in Hospitals and Nursing Homes** Institute of Medicine, Committee on the Adequacy of Nursing Staff in Hospitals and Nursing Homes, 1996-03-27 Hospitals and nursing homes are responding to changes in the health care system by modifying staffing levels and the mix of nursing personnel. But do these changes endanger the quality of patient care? Do nursing staff suffer increased rates of injury, illness, or stress because of changing workplace demands? These questions are addressed in *Nursing Staff in Hospitals and Nursing Homes*, a thorough and authoritative look at today's health care system that also takes a long-term view of staffing needs for nursing as the nation moves into the next century. The committee draws fundamental conclusions about the evolving role of nurses in hospitals and nursing homes and presents recommendations about staffing decisions, nursing training, measurement of quality, reimbursement, and other areas. The volume also discusses work-related injuries, violence toward and abuse of nursing staffs, and stress among nursing personnel—and examines whether these problems are related to staffing levels. Included is a readable overview of the underlying trends in health care that have given rise to urgent questions about nurse staffing: population changes, budget pressures, and the introduction of new technologies. *Nursing Staff in Hospitals and Nursing Homes* provides a straightforward examination of complex and sensitive issues surround the role and value of nursing on our health care system.
