Green Gold Alan Macfarlane, Iris Macfarlane, 2011-11-30 Apart from water, tea is more widely consumed than any other food or drink. Tens of billions of cups are drunk every day. How and why has tea conquered the world? Tea was the first global product. It altered life-styles, religions, etiquette and aesthetics. It raised nations and shattered empires. Economies were changed out of all recognition. Diseases were thwarted by the magical drink and cities founded on it. The industrial revolution was fuelled by tea, sealing the fate of the modern world. *Green Gold* is a remarkable detective story of how an East Himalayan camellia bush became the world's favourite drink. Discover how the tea plant came to be transplanted onto every continent and relive the stories of the men and women whose lives were transformed out of all recognition through contact with the deceptively innocuous green leaf.

Ordinary Lives Ben Highmore, 2010-09-13 This new study from Ben Highmore looks at the seemingly banal world of objects, work, daily media, and food, and finds there a scintillating array of passionate experience. Through a series of case studies, and building on his previous work on the everyday, Highmore examines our relationship to familiar objects (a favourite chair), repetitive work (housework, typing), media (distracted television viewing and radio listening) and food (specifically the food of multicultural Britain). A chair allows him to consider the history of flat-pack furniture as well as the lively presence of inorganic 'stuff' in our daily lives. Distracted television watching and radio listening becomes one of the preconditions for experiencing wonder through the media. *Ordinary Lives* links the concrete study of routine existence to theoretical reflection on everyday life. The book discusses philosophers such as Jacques Rancière, William James and David Hume and combines them with autobiographical testimonies, historical research and the analysis of popular culture to investigate the minutiae of day-to-day life. Highmore argues that aesthetic experience is embedded in the mundane sensory world of everyday life. He asks the reader to reconsider the negative associations of habit and routine, focusing specifically

on the intrinsic ambiguity of habit (habit, we find out, is both rigid and adaptive). Rather than ask 'what does everyday life mean?' this book asks 'what does everyday life feel like and how do our sensual, emotional and temporal experiences interconnect and intersect?' Ordinary Lives is an accessible, animated and engaging book that is ideally suited to both students and researchers working in cultural studies, media and communication and sociology.

Game, Set, Cash! Brad Hutchins,2014 Welcome to the hidden and lucrative world of tennis trading. Brad Hutchins has been living a young bloke's dream: being paid to watch sport. The 27-year-old Australian was employed by a secret gambling syndicate to follow the pro tennis circuit as a sports trader, using his mobile phone to relay results and beat online gamblers to the big pay-offs. His stories from the road would make anyone jealous: watching the world's best tennis players and partying in a new country every week, with cash to burn and no strings attached. But like card counters in casinos, sports traders are despised by the tennis establishment. The more time Brad spends courtside, the harder it becomes for him to evade the security guards who are hell-bent on ejecting him from the game. Game, Set, Cash! will appeal to anyone who loves scallywag stories in the spirit of The Wolf of Wall Street or Paul Carter's Don't Tell Mum I Work On the Rigs. 'A terrific read, and not just another 'racket'. Hutchins shines!' - Paul Carter, author of Don't Tell Mum I Work on the Rigs: She Thinks I'm a Piano Player in a Whorehouse.
